

CHANGES TO YOUR RESIDENTIAL CURBSIDE RECYCLING COLLECTION STARTING MAY 19, 2014!

What Changes?

A new program developed by Multi-Material BC (MMBC) is expanding residential recycling throughout the region. Starting May 19, 2014, additional items will be accepted in your residential curbside recycling collection. These new materials include milk cartons, aseptic boxes (Tetra-Paks for soups, sauces, etc.) frozen juice cans, aerosol cans, plastic drink cups and lids, and plastic garden pots and seedling trays.

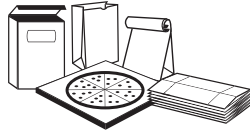

PLASTIC BAGS will **NO LONGER** be accepted in your curbside bin. These **MUST** be taken to the RECYCLING DEPOTS. Depots will now be accepting POLYSTYRENE (STYROFOAM) and glass bottles and jars.

**Recycling Depots are located at:
3620 3rd Avenue, and Alberni Valley Landfill**
