

# *Alberni-Clayoquot Regional District Beaver Creek Water Service Update*

## **Alleviating Boil Water Advisories**

To continue the goal of eliminating boil water advisories both reservoirs will be utilized to provide additional storage during the winter high turbidity period until the new Strick Road Pump Station is completed in February 2014. In addition, VIHA has approved the continued use of an approved fire truck if necessary. The old reservoir will be taken off line once the pump station is completed for repair evaluation.

## **Water Shut-off Notification**

If you have not received any phone calls informing you of water service interruptions please contact our office and we can provide this service when possible To register email: [bsauve@acrd.bc.ca](mailto:bsauve@acrd.bc.ca) or call 250-720-2702 and provide your name, address and contact number.

## **Capital Projects**

The Strick Road watermain replacement is completed with the Pump Station scheduled for completion in February 2014. Also, watermain upgrades have been performed in the Beaver Creek and Bainbridge Road area. Thank you for your patience during construction and the water servicing interruptions.

## **Assisting Emergency Response**

Some residences do not have clearly posted addresses. This will negatively effect emergency response and utility billing.. Please ensure that your house number is clearly visible.

## **Home Water System Protection**

To protect your plumbing system please ensure you have a functioning pressure reducing valves (PRV), as required in the BC Building Code. It is the responsibility of the property owner, and is typically located where the water enters the building. This is to protect the plumbing from pressure fluctuations that may occur.
