Alberni Clayoquot Health Network

Communication Summer 2014

Table of Partners - Call for Members

Do you have expertise, time & energy to commit to the health network?

The Alberni Clayoquot Health Network is currently looking for members to join it's newly formed 'Table of Partners' to support the work and priorities of the Network.

Benefits

- Work with a diverse group of stakeholders to create new possibilities for a healthier future.
- Collaborate to address some of the complex issues that affect health outcomes in our region.
- Utilize new approaches to help your membership and the broader community.

Because most of the issues we face today are neither owned nor solved by individual Stakeholders, the health network aims to bring people together to *identify health vulnerabilities, assets and come up with innovative solutions*. In other words, it requires cooperation, collaboration and sharing the load to make impacts and improve health across the region! The Network currently consists of over 200 (and growing) members with representation from:

- citizens
- local organizations
- school district
- First Nations/ Metis
- Government
- Health Authorities
- Early Years networks

We are currently looking for 12 to 15 members who:

- Participate in monthly meetings for either a one or two year term.
- Share expertise, tools and best practices with the Network
- Provide strategic thinking, gather information and seek resources to achieve the goals and objectives of the strategic plan (located [here](#)).
- Take discussions & decisions back to their organizations, and the wider community; advocate on behalf of the Health Network.
- Are willing to be accountable to the broader Network membership and responsible for ACHN contract staff, setting the budget and making decisions on how funds are allocated.

Are you interested in joining the Table of Partners? Please let us know by Sept. 10th, 2014.

Kindly complete a quick 5 question survey located here:

<https://www.surveymonkey.com/s/5QXMSSDC>

Or RSVP with your name and phone number to Shelli Lyle slyle@acrd.bc.ca

Someone from the network's recruitment and selection team will book a time to meet with you in order to discuss any questions about this worthwhile opportunity to impact health in our region.

Note: In the coming months, the health network will also be recruiting for community members to join more issue specific '**Action Tables**' and to participate in network meetings and other events and opportunities.

Stay tuned!

Join the network & be a part of healthy change! The Alberni Clayoquot Health Network is a mechanism for citizens working and living in the regional district to come together and speak with a collective voice on health issues and share ideas and resources to build healthy sustainable communities. Everyone is Welcome! How can you participate? It's simple! Attend our meetings and regional sponsored events. Send us your news & we'll share it!
