

This workshop brought to you by:

Canadian Association for Rainwater Management

ARCSA is a Member of

RAINWATER CATCHMENT ACCREDITED PROFESSIONAL WORKSHOP

**January 23-24, 2018
Alberni District, BC**

This two-day course provides an in-depth review of rainwater harvesting design and installation and is open to anyone with an interest in rainwater harvesting.

Topics include:

- Outdoor and in-home rainwater use
- Sanitation for potable uses
- Rules and regulations
- Site installation and safety
- System construction and maintenance
- Project planning and business management

The ARCSA AP designation* recognizes professionals in the industry who demonstrate competence in the design and installation of rainwater harvesting systems. Designer and Installer Certification** levels in Rainwater Harvesting will be available within the next year.
