

Notice to Salmon Beach residents regarding the Wendy Creek Bridge

The Toquaht Nation has purchased a steel bridge to replace the existing log stringer bridge over Wendy Creek, north of Salmon Beach. The bridge replacement project is proposed to begin before the end of this September and may take over 1 week. While in progress, that section of the road will be closed and any vehicles or equipment requiring access to the east side of the creek will need to use the internal through roads at Salmon Beach. The drivers will be briefed as to the sensitivity of the community's roads. The community will be notified when the exact start date of the project is known.

The contribution committed by Salmon Beach will be utilized and is appreciated.

If there is are any questions please forward them to:
