

Welcome

Tofino – Ucluelet Transit System

Public transit service has been identified as a priority for the West Coast communities for a number of years. In 2018, BC Transit conducted a feasibility study to examine routing options, service levels, vehicle types and provide high level cost estimates.

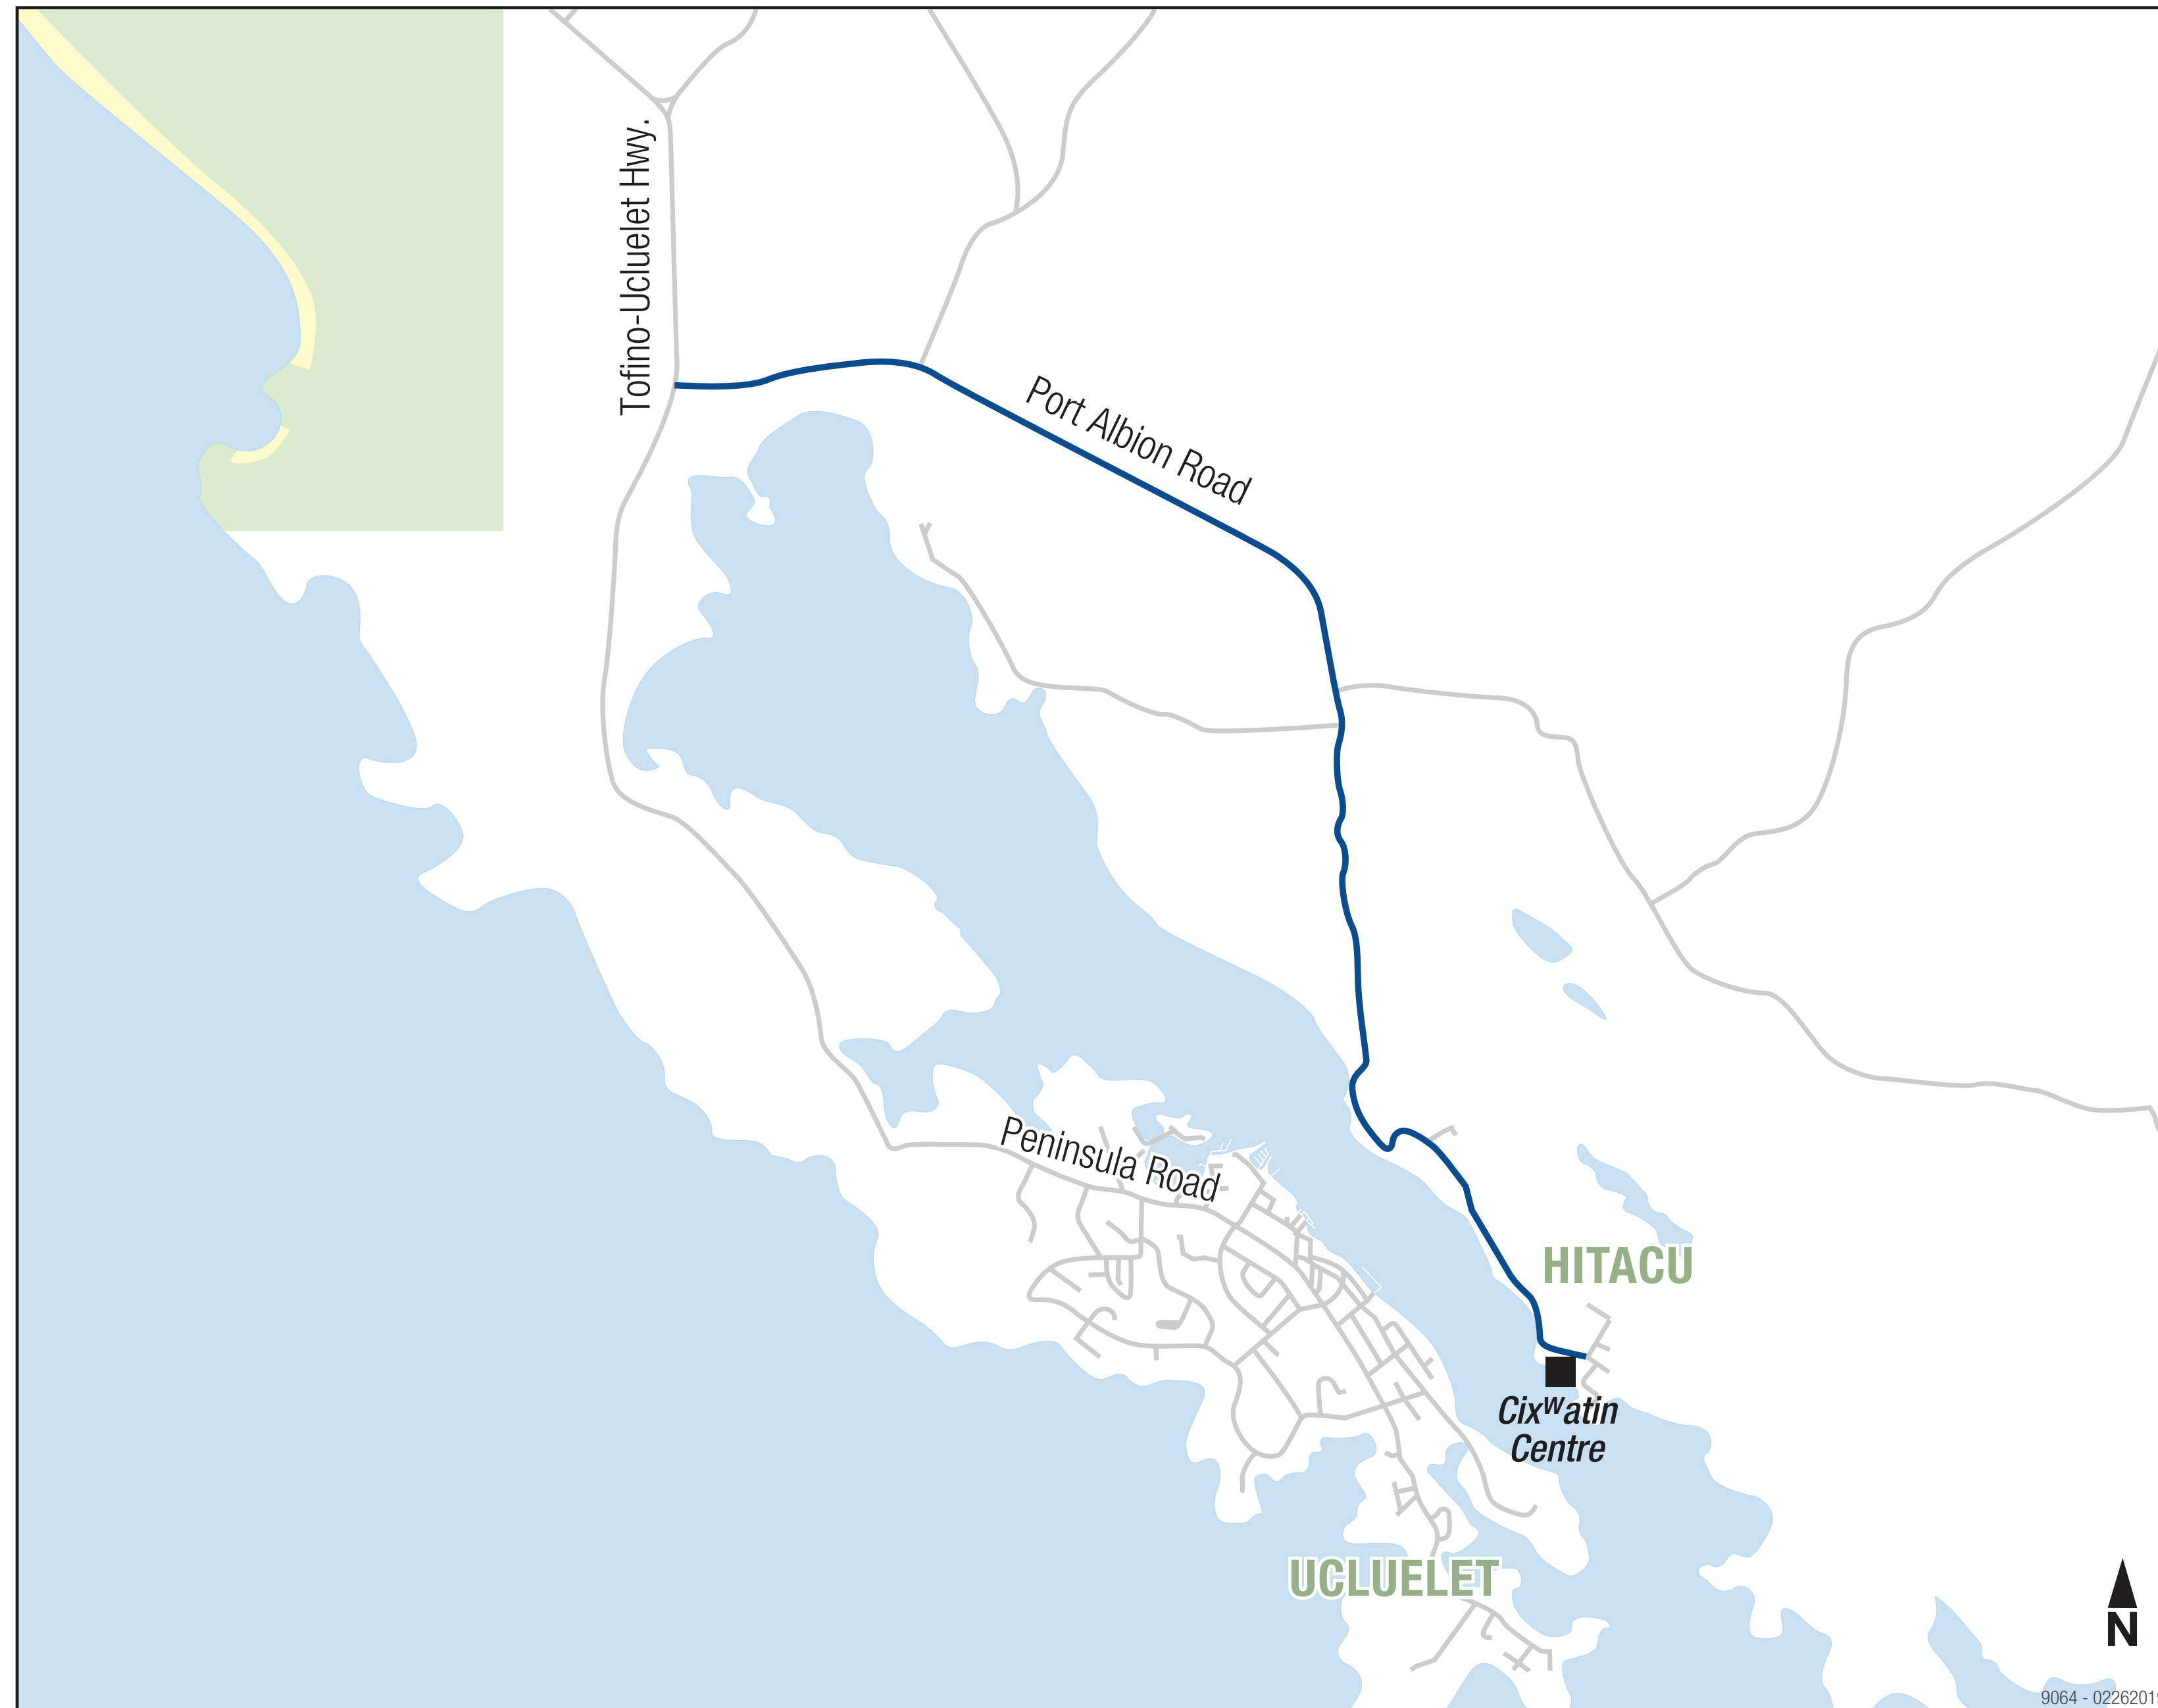

The proposed routing provides a transit connection between Downtown Tofino and Downtown Ucluelet.

This connection allows residents to travel to work, get groceries and attend medical appointments using transit.

We are exploring the possibility of extending a few trips to the Ucluelet First Nations Hitacu Community. See below a map of the proposed route.

This extension would add approximately 30 minutes to the conventional route and would operate off peak times.

Proposed Schedule
