[CAUTION] This email originated from outside of the ACRD

To whom it may concern,

I am writing in regards to file TUP25008.

We live within a kilometre of the subject property (8335 Beaver Creek Road).

We are fully opposed to this temporary use permit.

This property has has numerous loud events over the last year. The music has been astonishingly loud and going late into the evenings. Parking for these events spreads all over Beaver Creek Road.

We do not live rurally to have the peace disturbed. Noise and increased traffic do not belong out here.

We also do not have fire protection. Having events that can cause a fire is absolutely ridiculous.

These neighbors have proven to be disrespectful. We have no faith they will protect this community or that their commercial endeavours will benefit this community.

Please do not give this permit.

Thank you.
