[CAUTION] This email originated from outside of the ACRD

Totally disapprove and disagree with having this permit approved. We have already experienced noise from this property with venues held there. The noise echo's and we do hear it. We made the choice years ago to live out where we could enjoy nature and the quietness. We have a campground close by already at Stamp Falls and a Hall for venues at Beaver Creek Hall, People are welcome to have their events there. Next door to us, NEVER. The road is narrow and adding more congestion to it is a danger. So my input is NEVER, NEVER, NEVER.
