The purpose of this report is to assist you, as a member of the Board of Directors, in your review of the results of our audit of the financial statements. This report is intended solely for the information and use of Management and the Board of Directors and should not be used for any other purpose or any other party. KPMG shall have no responsibility or liability for loss or damages or claims, if any, to or by any third party as this report has not been prepared for, and is not intended for, and should not be used by, any third party or for any other purpose.

Status

As of the date of this report, we have completed the audit of the financial statements, with the exception of certain remaining procedures, which include amongst others:

- Receipt of two cash confirmations from the District's bank
- Completing our discussions with the Board.
- Obtaining evidence of the Board of Director's acceptance of the financial statements
- Obtaining a signed management representation letter
- Completing subsequent event review procedures up to the date of the Board of Director's acceptance of the financial statements

We will update the Board of Directors, and not solely the Chair, on significant matters, if any, arising from the completion of the audit, including the completion of the above procedures.

A draft of our auditor's report is provided

Significant risks and results

We highlight our significant findings in respect of **significant risks**.

Fraud risk from management override of controls

RISK OF
 
ERROR FRAUD

Significant risk

This is a presumed fraud risk. Management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively. Although the level of risk of management override of controls will vary from entity to entity, the risk nevertheless is present in all entities. We have not identified any specific additional risks of management override relating to this audit.

Our response

Our procedures included:

- testing of journal entries and other adjustments,
- performing a retrospective review of estimates,
- evaluating the business rationale of significant unusual transactions.

Significant findings

- There were no issues noted in our testing.

Other risks of material misstatement and results

We highlight our significant findings in respect of **other risks of material misstatement**.

Government transfers and deferred revenue

Our response

- We updated our understanding of the process activities and controls over government transfers and deferred revenue.
- We selected a sample of government transfers received and government transfers recognized as revenue and obtained supporting documentation to validate the appropriateness of the accounting treatment either as revenue or as deferred revenue. Grants received during the year and tested as part of the audit include funding to support housing initiatives, emergency preparedness and equipment at the Long Beach Airport, capital projects and transit service.
- We assessed revenue recognition in accordance with the requirements of public sector accounting standards including government transfers.

Significant findings

- There were no issues noted in our testing.

Other risks of material misstatement and results

We highlight our significant findings in respect of **other risks of material misstatement**.

Tangible Capital Assets

Significant findings

The District has several ongoing capital projects. Tangible capital asset additions during 2025 totaled 3.3 million (2024 – 4.9 million) and primarily related to capital projects at Long Beach Airport, Beaver Creek water system and other water systems.

Our response

- We updated our understanding of the process activities and controls over capital asset transactions.
- We tested a sample of tangible capital asset additions by agreeing a sample of additions to supporting invoices and payment. For assets placed into service, we validated the date placed into service and confirmed that the amortization method and useful was consistent with the amortization policy. No issues or errors were noted.
- We performed an analytical procedure over amortization expense by comparing the current year expense to prior year, adjusting for current year additions.
- We assessed management's assessment of asset retirement obligation (ARO) asset and liabilities after initial implementation of the new standard in 2023. We assessed management's process for updating assets and liabilities for remediation work completed in the year, new liabilities identified and revaluation of AROs from new information obtained or passage of time since initial recognition.

Significant findings

- There were no issues noted in our testing.

Other procedures performed

Cash, investments and debt

Response and findings

- We confirmed the balances of cash, including reserve accounts, investments and debt with the respective financial institutions.
- We tested the mathematical accuracy of investment income and expense recognized during the period.
- We tested subsequent payments to determine if they were recorded in the correct accounting period.
- No issues were noted in our testing.

Revenue and expenses

Response and findings

- We completed a test of details over tax requisitions from members by agreeing the amount of the requisition to the approved budget bylaw and cash receipt.
- We performed analytical procedures over segmented revenue and expenses by developing an expectation based on prior year segment as a percentage of prior year total and compared to actual.
- We performed analytical procedures over sale of service revenue and miscellaneous revenue comparing our expectation to actual revenue recognized in the year.
- We completed a test of details over operating goods and services expense, comparing a sample of expenses recognized to invoice support. We completed analytical procedures over expenses as a whole by developing an expectation based on prior year and budget and comparing to our expectation to actual.
- Salaries and wage expense included testing internal controls over management review of payroll expense as well as comparing actual to prior year, incorporating changes in expected pay rates based on collective agreements.
- No issues were noted in our testing.

Significant accounting policies and practices

Initial selection of significant accounting policies and practices

There have been no initial selections of accounting policies and practices.

Description of new or revised significant accounting policies and practices

There have been no new or revised significant accounting policies and practices.

Significant qualitative aspects

No matters to report.

Misstatements

Misstatements include financial presentation and disclosure omissions.

We identified one corrected misstatement and one uncorrected misstatement, which both impact disclosures in the financial statements only.

Corrected misstatements

- Correction to commitments disclosure to reduce commitments in 2026 by \$9,995, in 2027 by \$9,869, in 2028 by \$10,066, and in 2029 by \$8,595. The adjustment did not have an impact on annual surplus, only note disclosure of future payments committed at year end.

Impact of uncorrected misstatements – Not material to the financial statements

The management representation letter includes the Summary of Uncorrected Audit Misstatements, which discloses the impact of all uncorrected misstatements considered to be other than clearly trivial, including the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole.

We identified the following disclosure omission:

- Omission of disclosure of tangible capital assets by nature, rather than by service (consistent with previous years)

Based on both qualitative and quantitative considerations, management have decided not to correct certain misstatements and represented to us that the misstatements—individually and in the aggregate—are, in their judgment, not material to the financial statements. This management representation is included in the management representation letter.

We concur with management's representation that the uncorrected misstatements are not material to the financial statements. Accordingly, the uncorrected misstatements have no effect on our auditor's report.

Control deficiencies

Consideration of internal control over financial reporting (ICFR)

In planning and performing our audit, we considered ICFR relevant to the Entity's preparation of the financial statements in order to design audit procedures that are appropriate in the circumstances for the purpose of expressing an opinion on the financial statements, but not for the purpose of expressing an opinion on ICFR.

Our understanding of internal control over financial reporting was for the limited purpose described above and was not designed to identify all control deficiencies that might be significant deficiencies. The matters being reported are limited to those deficiencies that we have identified during the audit that we have concluded are of sufficient importance to merit being reported to those charged with governance.

Our awareness of control deficiencies varies with each audit and is influenced by the nature, timing, and extent of audit procedures performed, as well as other factors. Had we performed more extensive procedures on internal control over financial reporting, we might have identified more significant deficiencies to be reported or concluded that some of the reported significant deficiencies need not, in fact, have been reported.

A deficiency in internal control over financial reporting

A deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A deficiency in design exists when (a) a control necessary to meet the control objective is missing or (b) an existing control is not properly designed so that, even if the control operates as designed, the control objective would not be met. A deficiency in operation exists when a properly designed control does not operate as designed, or when the person performing the control does not possess the necessary authority or competence to perform the control effectively.

Significant deficiencies in internal control over financial reporting

A deficiency, or a combination of deficiencies, in internal control over financial reporting that, in our judgment, is important enough to merit the attention of those charged with governance.

We did not identify any significant deficiencies in internal control over financial reporting.

Independence: Shared responsibilities

Auditor independence is a shared responsibility and most effective when management, audit committees, and audit firms work together in considering compliance with relevant independence rules. In order for KPMG to fulfill its professional responsibility to maintain and monitor independence, management, the audit committee, and KPMG each play an important role. We apply the following ethical requirements, including independence requirements, in:

- the rules of professional conduct / code of ethics applicable to the practice of public accounting issued by various professional accounting bodies in Canada ("CPA code") that are relevant to audits of financial statements of non-reporting issuers; and
- the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants ("IESBA independence rule") that are relevant to audits of financial statements of non-public interest entities.

The firm maintains a system of quality control over compliance with independence rules and firm policies. Timely information before the effective date of transactions or other business changes is necessary to effectively maintain the firm's independence in relation to:

- New related entities
- Any former KPMG professional who are directors, officers, or employee in a position to exert significant influence over the preparation of the client's accounting records or the financial statements.

- We will report to those charged with governance all relationships that may reasonably be thought to bear on our independence, including fees charged, and discuss the potential effects of such relationships on our independence. We will also report the related safeguards that have been applied, as applicable, to eliminate identified threats to independence or reduce them to an acceptable level.
- This communication, if any, will be provided during our year-end communications.

Independence

Under the newly effective *Narrow-scope Amendments to Canadian Auditing Standard (CAS) 700, Forming an Opinion and Reporting on Financial Statements, and CAS 260, Communication with Those Charged with Governance*, the auditor shall communicate with those charged with governance the relevant ethical requirements, including those related to independence, that the auditor applies for the audit engagement, including if applicable in the circumstances, any independence requirements specific to audits of financial statements of certain entities.

In accordance with this requirement, we communicate to the Committee that we apply the following ethical requirements, including independence requirements, in:

- the rules of professional conduct / code of ethics applicable to the practice of public accounting issued by various professional accounting bodies in Canada ("CPA Code") that are relevant to audits of financial statements; and
- the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants that are relevant to audits of financial statements.

Appendix 1: Required communications

Auditor's report

Refer to the draft report attached to the financial statements.

Engagement letter

The objectives of the audit, our responsibilities in carrying out our audit, as well as management's responsibilities, are set out in the engagement letter.

Independence

As required by professional standards, we have considered all relationships between KPMG and the Entity that may have a bearing on independence. We confirm that we are independent with respect to the Entity within the meaning of the relevant rules and related interpretations prescribed by the relevant professional bodies in Canada and any other standards or applicable legislation or regulation from January 1, 2025 up until the date of this report.

Management representation letter

We will obtain from management certain representations at the completion of the audit. In accordance with professional standards, a copy of the representation letter is attached.

Appendix 1: Required communications (continued)

Management's responsibilities

Under the auditing standards, we are required to obtain the agreement of management that it acknowledges and understands its responsibility. An audit of the annual financial statements does not relieve management or those charged with governance of their responsibilities. We have obtained management's acknowledgment and understanding of their responsibilities in the engagement letter and as described below:

- (a) the preparation and fair presentation of the annual financial statements in accordance with the financial reporting framework referred to above.
- (b) providing us with all information of which management is aware that is relevant to the preparation of the financial statements ("relevant information") such as financial records, documentation and other matters, including:
 - the names of all related parties and information regarding all relationships and transactions with related parties
 - the complete minutes of meetings, or summaries of actions of recent meetings for which minutes have not yet been prepared, of Council, and committees of Council that may affect the financial statements. All significant actions are to be included in such summaries.
- (c) providing us with unrestricted access to such relevant information.
- (d) providing us with complete responses to all enquiries made by us during the engagement.
- (e) providing us with additional information that we may request from management for the purpose of the engagement
- (f) providing us with unrestricted access to persons within the Entity from whom we determine it necessary to obtain evidence
- (g) such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. Management also acknowledges and understands that they are responsible for the design, implementation and maintenance of internal control to prevent and detect fraud.
- (h) ensuring that all transactions have been recorded and are reflected in the financial statements.
- (i) ensuring that internal auditors providing direct assistance to us, if any, will be instructed to follow our instructions and that management, and others within the entity, will not intervene in the work the internal auditors perform for us.
- (j) providing us with written representations required to be obtained under professional standards and written representations that we determine are necessary. Management also acknowledges and understands that, as required by professional standards, we may disclaim an audit opinion when management does not provide certain written representations required.

DATE

Ladies and Gentlemen:

We are writing at your request to confirm our understanding that your audit was for the purpose of expressing an opinion on the financial statements (hereinafter referred to as "financial statements") of Alberni-Clayoquot Regional District ("the Entity") as at and for the period ended December 31, 2025.

General:

We confirm that the representations we make in this letter are in accordance with the definitions as set out in [Attachment I](#) to this letter.

We also confirm that, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves:

Responsibilities:

- 1) We have fulfilled our responsibilities, as set out in the terms of the engagement letter dated September 29, 2022. including for:
 - a) the preparation and fair presentation of the financial statements and believe that these financial statements have been prepared and present fairly in accordance with the relevant financial reporting framework.
 - b) providing you with all information of which we are aware that is relevant to the preparation of the financial statements ("relevant information"), such as financial records, documentation and other matters, including:
 - the names of all related parties and information regarding all relationships and transactions with related parties;
 - the complete minutes of meetings, or summaries of actions of recent meetings for which minutes have not yet been prepared, of the board of directors and committees of the board of directors that may affect the financial statements. All significant actions are included in such summaries.
 - c) providing you with unrestricted access to such relevant information.
 - d) providing you with complete responses to all enquiries made by you during the engagement.

- e) providing you with additional information that you may request from us for the purpose of the engagement.
- f) providing you with unrestricted access to persons within the Entity from whom you determined it necessary to obtain audit evidence.
- g) such internal control as we determined is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. We also acknowledge and understand that we are responsible for the design, implementation and maintenance of internal control to prevent and detect fraud.
- h) ensuring that all transactions have been recorded in the accounting records and are reflected in the financial statements.
- i) ensuring that internal auditors providing direct assistance to you, if any, were instructed to follow your instructions and that we, and others within the entity, did not intervene in the work the internal auditors performed for you.

Internal control over financial reporting:

- 2) We have communicated to you all deficiencies in the design and implementation or maintenance of internal control over financial reporting of which we are aware.

Fraud & non-compliance with laws and regulations:

- 3) We have disclosed to you:
 - a) the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.
 - b) all information in relation to fraud or suspected fraud that we are aware of that involves:
 - management;
 - employees who have significant roles in internal control over financial reporting; or
 - otherswhere such fraud or suspected fraud could have a material effect on the financial statements.
 - c) all information in relation to allegations of fraud, or suspected fraud, affecting the financial statements, communicated by employees, former employees, analysts, regulators, or others.
 - d) all known instances of non-compliance or suspected non-compliance with laws and regulations, including all aspects of contractual agreements, whose effects should be considered when preparing financial statements.

- e) all known actual or possible litigation and claims whose effects should be considered when preparing the financial statements.

Subsequent events:

- 4) All events subsequent to the date of the financial statements and for which the relevant financial reporting framework requires adjustment or disclosure in the financial statements have been adjusted or disclosed.

Related parties:

- 5) We have disclosed to you the identity of the Entity's related parties.
- 6) We have disclosed to you all the related party relationships and transactions/balances of which we are aware.
- 7) All related party relationships and transactions/balances have been appropriately accounted for and disclosed in accordance with the relevant financial reporting framework.

Estimates:

- 8) Measurement methods and significant assumptions used by us in making accounting estimates, including those measured at fair value, are reasonable.

Going concern:

- 9) We have provided you with all information relevant to the use of the going concern assumption in the financial statements.

Misstatements:

- 10) We approve the corrected misstatements identified by you during the audit described in [Attachment II](#).
- 11) The effects of the uncorrected misstatements described in [Attachment II](#) are immaterial, both individually and in the aggregate, to the financial statements as a whole.

Other:

- 12) We confirm that we have provided you with a complete list of service organizations (SO) and sub-service organizations (SSO) and that the relevant complementary user entity controls (CUECs) related to each SO/SSO have been designed and implemented. For the purpose of this representation, a service organization is one as defined in CAS 402.

Non-SEC registrants or non-reporting issuers:

- 13) We confirm that the Entity is not a Canadian reporting issuer (as defined under any applicable Canadian securities act) and is not a United States Securities and Exchange Commission (“SEC”) Issuer (as defined by the Sarbanes-Oxley Act of 2002).
- 14) We also confirm that the financial statements of the Entity will not be included in the group financial statements of a Canadian reporting issuer audited by KPMG or an SEC Issuer audited by any member of the KPMG organization.

Other information:

- 15) We confirm that the final version of the Annual Report 2025 will be provided to you when available, and prior to issuance by the Entity, to enable you to complete your audit procedures in accordance with professional standards.

Yours very truly,

Daniel Sailland, Chief Administrative Officer

Shane Koren, Acting Chief Financial Officer

cc: Board of Directors

Attachment I – Definitions

Materiality

Certain representations in this letter are described as being limited to matters that are material. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements. Judgments about materiality are made in light of surrounding circumstances, and are affected by the size or nature of a misstatement, or a combination of both.

Fraud & error

Fraudulent financial reporting involves intentional misstatements including omissions of amounts or disclosures in financial statements to deceive financial statement users.

Misappropriation of assets involves the theft of an entity's assets. It is often accompanied by false or misleading records or documents in order to conceal the fact that the assets are missing or have been pledged without proper authorization.

An error is an unintentional misstatement in financial statements, including the omission of an amount or a disclosure.

DRAFT

Attachment II – Summary of Audit Misstatements Schedule

Corrected misstatements in the current period

The following misstatements were identified during the audit and subsequently corrected in the financial statements:

Presentation and Disclosures:

1. Correction to commitments disclosure to reduce commitments in 2026 by \$9,995, in 2027 by \$9,869, in 2028 by \$10,066, and in 2029 by \$8,595.

Uncorrected misstatements in the current period

Presentation and Disclosures:

1. Omission of disclosure of the nature of tangible capital assets

DRAFT

Appendix 3: Audit quality - Our commitment to delivering audit quality

We define 'audit quality' as being the outcome when:

- audits are **executed consistently**, in line with the requirements and intent of **applicable professional standards** within a strong **system of quality management**; and
- all of our related activities are undertaken in an environment of the utmost level of **objectivity, independence, ethics and integrity**.

KPMG is committed to fulfilling our public interest role in providing robust assurance that can benefit investors and other stakeholders.

Businesses are integrating technology in ways once unimaginable. Geopolitical changes and inflationary pressures continue to drive uncertainty, and businesses need to take action to respond to societal threats like climate change.

The pace and scale of change only strengthens our resolve to ensure the quality, consistency and adaptability of our services are fit for this new future. Audit and assurance quality remains the highest priority at KPMG.

Through sustained innovation, we aim to consistently deliver superior audit quality. Across the global organization:

- KPMG firms have implemented a consistent risk-based approach to our system of quality management to drive audit and assurance quality, enabling us to meet the requirements of the International Standard on Quality Management 1 (ISQM 1).
- We are utilising powerful technologies on audit and assurance engagements, including artificial intelligence, and leveraging our alliances with technology leaders such as Microsoft to further enhance quality and provide even more value through deeper analysis of businesses, no matter their size.
- We believe the same level of rigour, quality, consistency and trust that is applied to financial statement information by companies should also apply to ESG reporting. Therefore, across the global organization we have deployed an assurance methodology, KPMG Clara workflow and learning tools to upskill and build teams to provide assurance on ESG reporting that helps our clients build a more sustainable future.

We encourage you to read our Transparency Report to learn more about our system of quality management and our firm's statement on the effectiveness of our SoQM:

 [KPMG Canada Transparency Report](#)

Appendix 3: Audit quality - How do we deliver audit quality?

Quality essentially means doing the right thing and remains our highest priority.

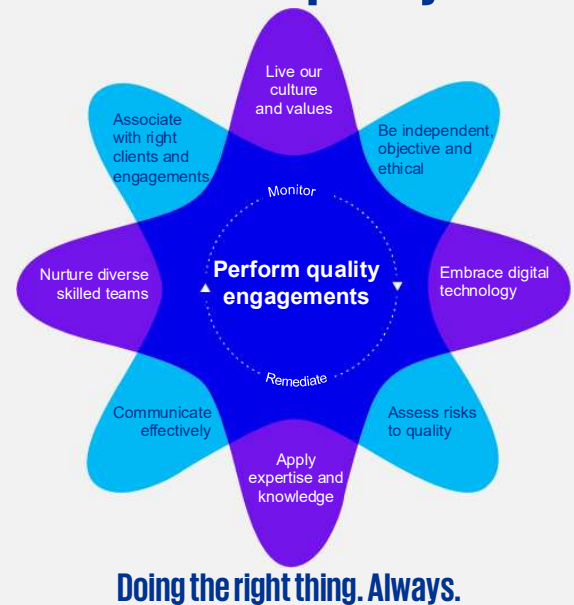

We have strengthened the consistency and robustness of our system of quality management to meet the requirements of ISQM 1 (CSQM 1), issued by the International Audit and Assurance Standards Board. Foundational for quality management, KPMG's globally consistent approach to ISQM 1 drives compliance with the standard and our efforts to strengthen trust and transparency with clients, the capital markets and the public we serve.

Aligned with ISQM 1 (CSQM 1), our SoQM meets the requirements of the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA) and the relevant rules of professional conduct / code of ethics applicable to the practice of public accounting in Canada, which apply to professional services firms that perform audits of financial statements.

Our **Global Quality Framework** outlines how we deliver quality and how every KPMG professional contributes to its delivery.

 **'Perform quality engagements'** sits at the core, along with our commitment to continually monitor and remediate to fulfil our quality drivers.

 Our **quality value drivers** are the cornerstones to our approach underpinned by the **supporting drivers** and give clear direction to encourage the right behaviours in delivering audit quality.

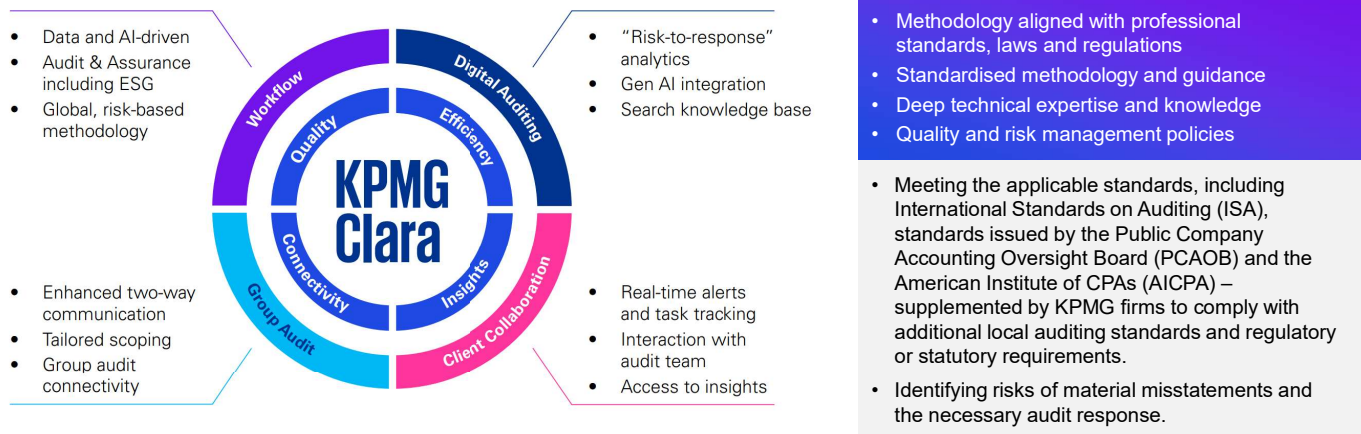

Appendix 3: Audit quality - The KPMG Audit

Globally consistent audit and assurance methodology and tools

As a scalable, intuitive cloud-based platform, KPMG Clara is driving globally consistent execution across all KPMG member firms. It enables delivery of KPMG audit and assurance methodologies through data-enabled workflows, which align with the applicable audit and assurance standards and provide an improved experience to audit and assurance professionals.

Appendix 4: Current developments

Effective for periods beginning on or after December 15, 2024

ISA 260/CAS 260

Communications
with those charged
with governance

Summary of Changes:

New requirements for the auditor to communicate:

- about the relevant ethical requirements, including those related to independence, that the auditor applied to the audit of the financial statements; and
- any enhanced independence requirement that the auditor applied specific to the audit of financial statements of certain entities.

ISA 700/CAS 700

Forming an opinion
and reporting on
the financial
statements

Summary of Changes:

New requirements for the auditor to publicly disclose when the auditor applied independence requirements specific to audits of financial statements of certain entities WHEN the ethical requirements require public disclosure.

Appendix 4: Current developments (continued)

Accounting standards

Conceptual Framework for Financial Reporting in the Public Sector

Effective for years commencing on or after April 1, 2026 with early adoption permitted.

- The framework provides the core concepts and objectives underlying Canadian public sector accounting standards.
- The ten chapter conceptual framework defines and elaborates on the characteristics of public sector entities and their financial reporting objectives. Additional information is provided about financial statement objectives, qualitative characteristics and elements. General recognition and measurement criteria, and presentation concepts are introduced.

Financial Statement Presentation

Effective for years commencing on or after April 1, 2026 with early adoption permitted.

- The proposed section PS 1202 *Financial statement presentation* will replace the current section PS 1201 *Financial statement presentation*. PS 1202 *Financial statement presentation*.
- The proposed section includes the following:
 - Relocation of the net debt indicator to its own statement called the statement of net financial assets/liabilities, with the calculation of net debt refined to ensure its original meaning is retained.
 - Separating liabilities into financial liabilities and non-financial liabilities.
 - Restructuring the statement of financial position to present total assets followed by total liabilities.
 - Changes to common terminology used in the financial statements, including re-naming accumulated surplus (deficit) to net assets (liabilities).
 - Removal of the statement of remeasurement gains (losses) with the information instead included on a new statement called the statement of changes in net assets (liabilities). This new statement would present the changes in each component of net assets (liabilities), including a new component called "accumulated other".
 - A new provision whereby an entity can use an amended budget in certain circumstances.
 - Inclusion of disclosures related to risks and uncertainties that could affect the entity's financial position.

Example of a Typical Implementation Approach

Phase 1

- Understand the existing financial reporting processes.
- Examine chart of accounts and trial balance.
- Review accounting policy.
- Gap assessment and implementation plan.

Phase 2

- Data gathering and financial data analysis.
- Budget and performance reporting.
- System and software impacts.
- Implementation and compliance adjustments

Appendix 4: Current developments (continued)

Accounting standards (continued)

Employee Benefits

Effective for years commencing on or after April 1, 2029 with early adoption permitted.

- The Public Sector Accounting Board has issued a new standard PS 3251 *Employee benefits* which will replace the current sections PS 3250 *Retirement benefits* and PS 3255 *Post-employment benefits, compensated absences and termination benefits*.
- The standard uses principles from International Public Sector Accounting Standard 39 *Employee benefits* as a basis for the Canadian standard.
- The standard results in public sector entities recognizing the impact of revaluations of the net defined benefit liability (asset) immediately on the statement of financial position.
- The standard also requires that fully funded post-employment benefit plans use a discount rate based on the expected market-based return of plan assets and underfunded plans use a discount rate based on the market yield of government bonds, high-quality corporate bonds or another appropriate financial instrument. A simplified approach to determining a plan's funding status is provided.
- The standard also requires that:
 - Deferral provisions – Remeasurement gains and losses are presented as part of accumulated remeasurement gains and losses.
 - Valuation of plan assets – Upon adoption, public sector entities may continue to recognize non-transferable financial instruments balances that meet the definition of plan assets under existing PS 3250 guidance. This transitional provision does not permit the recognition of additional amount after adoption that do not meet the revised definition of plan assets.
 - Joint defined benefit plans – Defined benefit accounting is used for measurement of the proportionate share of the plan, instead of previously proposed multi-employer plan accounting which permitted accounting based on defined contribution concepts where insufficient information exists to use defined benefit accounting.
 - Disclosure of other long-term employee benefits and termination benefits – The standard does not include prescriptive disclosure requirements for other long-term employee benefits and termination benefits.
- The standard's guidance will be applied retroactively, with or without prior period restatement.

Appendix 4: Current developments (continued)

Accounting standards (continued)

Intangible Assets

Proposed to be effective for years commencing on or after April 1, 2030 with early adoption permitted.

- The Public Sector Accounting Standards Board has issued proposed new standard PS 3155 *Intangible Assets* which would replace Public Sector Guideline 8 *Purchased Intangibles*.
- The standard will include foundational guidance on acquired and internally generated intangibles. It excludes intangible assets addressed in other public sector accounting standards and other intangible items such as exploration and extraction costs for non-renewable resources or intangible assets related to insurance contracts.
- The definition of “intangible assets” requires an intangible resource to be separate and identifiable from goodwill. It also requires that the entity has control over the intangible resource, future economic benefits flow from the intangible resource, and the intangible resource is the result of a past transaction and/or other events.
- Internally generated goodwill is not permitted to be recognized as an asset.
- An intangible resource is recognized when it meets the definition of an intangible asset and the asset’s cost can be measured in a faithfully representative way. The generation of the asset is classified into a research phase and a development phase. Expenditures from the research phase of an internally generated project are expensed. An intangible asset arising from the development phase can be recognized if it meets certain requirements.
- Intangible assets are initially measured at cost and subsequently carried at cost less accumulated amortization and accumulated impairment losses. Intangible assets acquired through a non-exchange transaction are measured at fair value as of the date it is acquired.

Cloud Computing Arrangements

- As part of its intangible assets project, the Public Sector Accounting Standards Board is also developing guidance on cloud computing arrangements. To ensure the development of this accounting guidance reflects current practices and needs, a survey was used to gather insights. The survey will inform the Public Sector Accounting Board about the types of cloud computing arrangements being encountered, magnitude of costs, key arrangement terms, current accounting policies and unique challenges in practice.

Half of Public Servants Turn to AI Raising Risks

KPMG survey finds public sector unready for AI, low literacy, need for digital sovereignty.

While less than a quarter (**22 per cent**) of Canadian public sector organizations have adopted artificial intelligence (AI), half of the public servants who use AI in their jobs rely on publicly available AI tools, exposing governments to potential risks including data privacy and security breaches, intellectual property theft and exposure to biased or inaccurate information that can lead to legal and ethical issues, finds a new KPMG in Canada research.

Intelligent Government

The emergence of generative AI, alongside advanced autonomous and agentic systems, is transforming how government and the public sector innovate and operate. Our findings reveal an actionable blueprint for governments and organizations aiming to leverage AI's potential to drive efficiency, reduce time-to-market and improve patient outcomes. This report provides insights into how they can take a value-based approach to AI that helps to accelerate innovation, unlock new growth opportunities, and maximize the impact of their AI investments.

KPMG 2025 Canadian CEO Outlook

Our 2025 CEO Outlook survey reveals a compelling paradox: Canadian CEOs are increasingly confident in the growth of their companies and industries, yet their optimism about the Canadian and global economies is waning.

Despite the evolving pressures, CEOs alike are proactively focusing on making their organizations more resilient to external shocks. They are not just reacting to changes, but are actively seeking ways to mitigate external risks, improve productivity and optimize revenue.

Midyear Observations on the 2025 Board Agenda

Disruption, volatility, and uncertainty aren't new operating conditions by any means. But the assumptions that have long driven corporate thinking - the role of government, geopolitical norms, and consistency in US policies as administrations change, and the speed of technological advances—are being upended. Few business leaders have experienced the scope, complexity, and combination of issues companies are facing today—and many will earn their stripes in the months ahead.

Accelerate

The Canadian business landscape is experiencing profound interconnected geopolitical, technological and sustainability challenges which are causing compound impacts on the balance sheet. The audit committee's role in stewarding their organization towards increased productivity, resilience, and growth has never been more essential.

Our *Accelerate* series strives to provide audit committees with actionable insights and clear guidance for navigating through these interconnected challenges.

From Smart to Smarter Cities

Leveraging integration, data and enablement for sustainable and resilient urban transformations.

Cities are reaching a crisis point. City populations are growing. Citizen satisfaction with government services is weakening. And net zero deadlines are looming. Cities recognize that their traditional approaches to city planning, development, management and renewal will not get them to their goals in time. They must become smarter, more integrated, data-driven and enabling.

From Smart to Smarter Cities explores how a focus on becoming more integrated, data-driven and enabling can help city decision-makers, infrastructure leaders and private companies accelerate their smart city agendas.

In this report, professionals from KPMG's global network join with experienced industry and city leaders to unpack these three priorities – integrated, data-driven and enabling – across the lens of the six challenges facing cities today – urban planning, data and privacy, transportation and mobility, sustainability and social equity, governance and oversight, and funding and financing.

Blueprint for Livable Economies

Unlocking livability through place-based business cases

Rapid urbanization, climate volatility, fiscal constraint and rising social expectations are exposing the limits of traditional approaches to urban planning and investment. The challenge is not a lack of ambition or funding, but rather how decisions are made, investments are structured and delivery is governed and coordinated. Addressing the gap between investment and outcomes requires cities to move beyond asset-level justification towards integrated, geography-specific portfolios and place-based business cases that reflect how places function and are experienced in practice.

Developed in collaboration by KPMG International, Davos Baukultur Alliance and UN-Habitat, this white paper supports that shift. Drawing on global case studies, executive insight and practical tools, it sets out how public sector leaders can apply a place-based approach using levers already within their control.

At the center of the paper is the *Blueprint for livable economies*, a decision-making framework designed to help city leaders, investors and partners align outcomes, economic pathways and delivery mechanisms.

Get ready for Canadian Sustainability Standards Board (CSSB) sustainability disclosures

What was issued?

- The first Canadian Sustainability Disclosure Standards¹, which mark the next step towards equal prominence for sustainability and financial reporting in Canada.
- They are aligned with the IFRS[®] Sustainability Disclosure Standards, with the exception of effective date and transition relief.
- They are based on existing frameworks and standards, including Task Force on Climate-Related Financial Disclosures (TCFD) and Sustainability Accounting Standards Board (SASB).
- They are investor-focused.

What's the impact?

- Companies applying these standards will report on all relevant sustainability topics (not just on climate) under a consistent framework and focus on how these topics impact a company's prospects.
- Reporting will be connected to the financial statements. Therefore, companies will need processes and controls in place so that they can provide sustainability-related information of the same quality, and at the same time, as their financial information.

What's next?

- The standards are effective from January 1, 2025 on a voluntary basis.
- Canada's provincial and territorial regulators and legislators will determine whether application of the standards should be mandated, and if so, who will need to apply them and over what time frame.
- Some public and private companies may choose to apply them voluntarily – e.g., in response to investor or societal pressure.

¹ Canadian Sustainability Disclosure Standards – CSDS 1 *General Requirements for Disclosure of Sustainability-related Financial Information* and CSDS 2 *Climate-related Disclosures*, both published on December 18, 2024.

Appendix 6: Canadian sustainability reporting activities

What's here and what's coming?

Globally 2025 has seen a mix of progress and resistance in sustainability reporting. The EU continued to make strides on its proposals aimed to lessen the burden of sustainability reporting, while the ISSB published practical proposals to ease implementation. Meanwhile, in the US, California's climate laws took another step forward, but all state-level initiatives look set to face federal resistance. *In Canada, the CSSB released its first two voluntary reporting standards, but the CSA stated that they are pausing development of a new mandatory climate disclosure rule.*

▶ Voluntary Canadian standards rollout

- In December 2024, the Canadian Sustainability Standards Board (CSSB) released its first two voluntary Canadian Sustainability Disclosure Standards (CSDS).
- The standards are aligned with the IFRS Sustainability Disclosure Standards, with the exception of a Canadian-specific effective date and incremental transition reliefs.

▶ Road to mandatory application in Canada?

- Canada's regulators and legislators will determine if and when application of the standards should be mandated.
- In April 2025, the Canadian Securities Administrators (CSA) announced that they are pausing the development of a new mandatory climate disclosure rule and amendments to the existing diversity-related disclosure requirements in an effort "to support Canadian markets and issuers as they adapt to the recent developments in the US and globally." The CSA stated that they will monitor Canadian and international regulatory developments and expect to revisit these projects in future years.

▶ Other Canadian regulatory developments

- Federally regulated financial institutions are required to comply with OSFI B-15 which is broadly based on the ISSB standards.
- Canadian government anti-greenwashing regulations introduced (Bill C-59).

▶ What could you be doing now?

1 (Re) Establish reporting strategy

- Undertake a regulatory impact assessment to determine the sustainability reporting requirements that apply to your organization.
- Document your reporting strategy, including any planned voluntary reporting and assurance.
- Conduct a materiality assessment considering the frameworks you plan to comply with.

2 Assess current state

- Identify the differences between applicable regulations and/or standards and current reporting.
- Conduct a current state maturity analysis of processes, controls, people, technology and governance structures.
- Complete data gap assessment and develop plan to close gaps.

3 Design reporting policies & target operating model (TOM)

- Develop and/or adapt policies, regarding identified material risks and opportunities.
- Develop standard Key Performance Indicator (KPI) definitions and calculation methodologies.
- Determine TOM and solutions to support sustainability reporting and assurance.

4 Implement sustainability reporting roadmap

- Develop roadmap for delivery, identify milestones, interim and final targets.
- Design future reports.
- Rollout of TOM, including implementation and training required.
