Sensitive Terrestrial Habitats Legend

- Priority Old Growth Forest Ecosystems
- Wildlife Habitat Areas
- Critical Habitat

Basemap Elements

 Provincial Digital Roads Atlas	 ParcelMap BC Parcels
 Official Community Plan Area	 ParcelMap BC Plans
 Other Jurisdictions (OCP Does Not Apply)	 Water
	 Wetland

Map Notes

Critical habitat is defined in the federal Species at Risk Act (SARA) as "the habitat that is necessary for the survival or recovery of a listed wildlife species and that is identified as the species' critical habitat in the recovery strategy or action plan for the species". Critical habitats within Area 'C' include those for Marbled Murrelet, Northern Red Legged Frog, Dromedary Jumping Slug, and Acute-leaf Small Limestone Moss.

The provincial Old Growth Technical Advisory Panel (TAP) conducted spatial analysis to identify priority old growth harvesting deferral areas having the biggest-treed old growth ecosystems, ancient forests, and old forest ecosystems.

Freshwater Habitats Legend

- Stream Atlas
- Stream with fish observation
- Waterbody
- Wetland

Basemap Elements

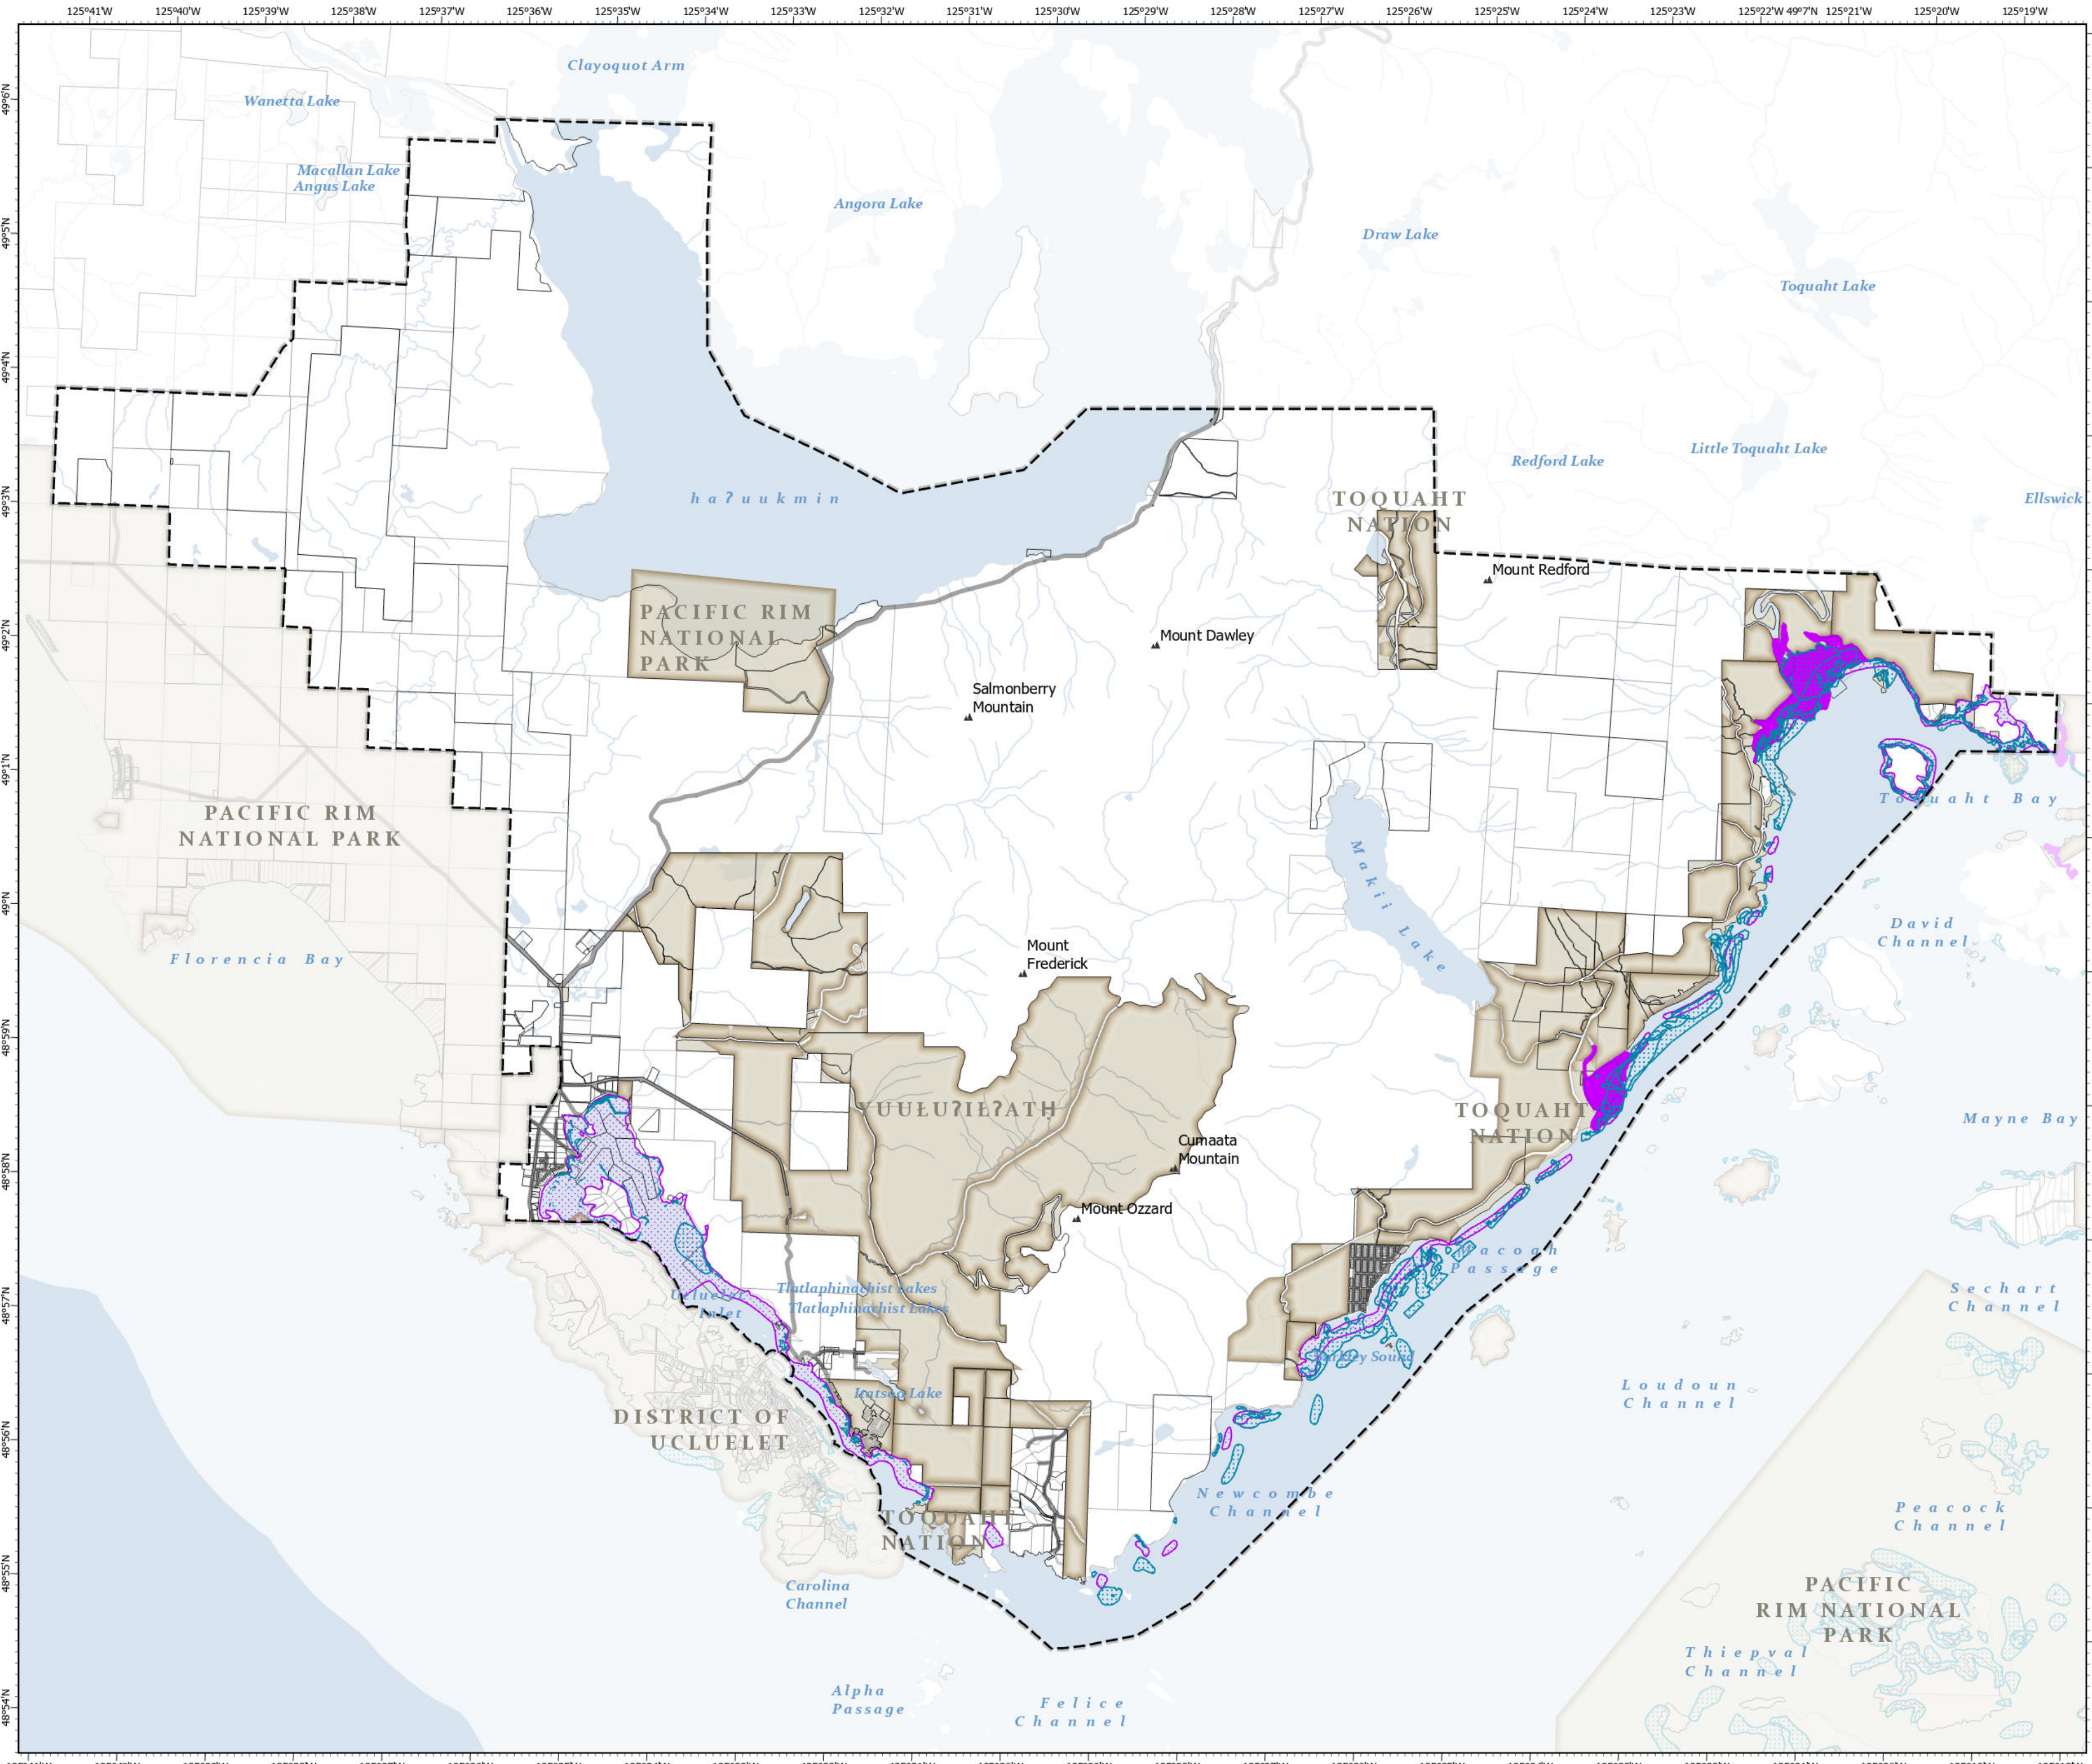

- Provincial Digital Roads Atlas
- Official Community Plan Area
- Other Jurisdictions (OCP Does Not Apply)
- ParcelMap BC Parcels
- ParcelMap BC Plans
- Water

Map Notes

Where local-level watercourse data was unavailable, the BC Freshwater Atlas (FWA) Streams, Rivers, Lakes and Wetlands datasets were used. The ACRD Stream Atlas was used in addition to or instead of BC FWA streams. The ACRD Stream Atlas consists of streams mapped and sampled in 1999, and FWA streams with spatially improved watercourse centerlines based on high resolution digital elevation models.

Schedule I: Map 1 Freshwater Habitats

- Water
- Other Jurisdictions (OCP Does Not Apply)
- Wetland

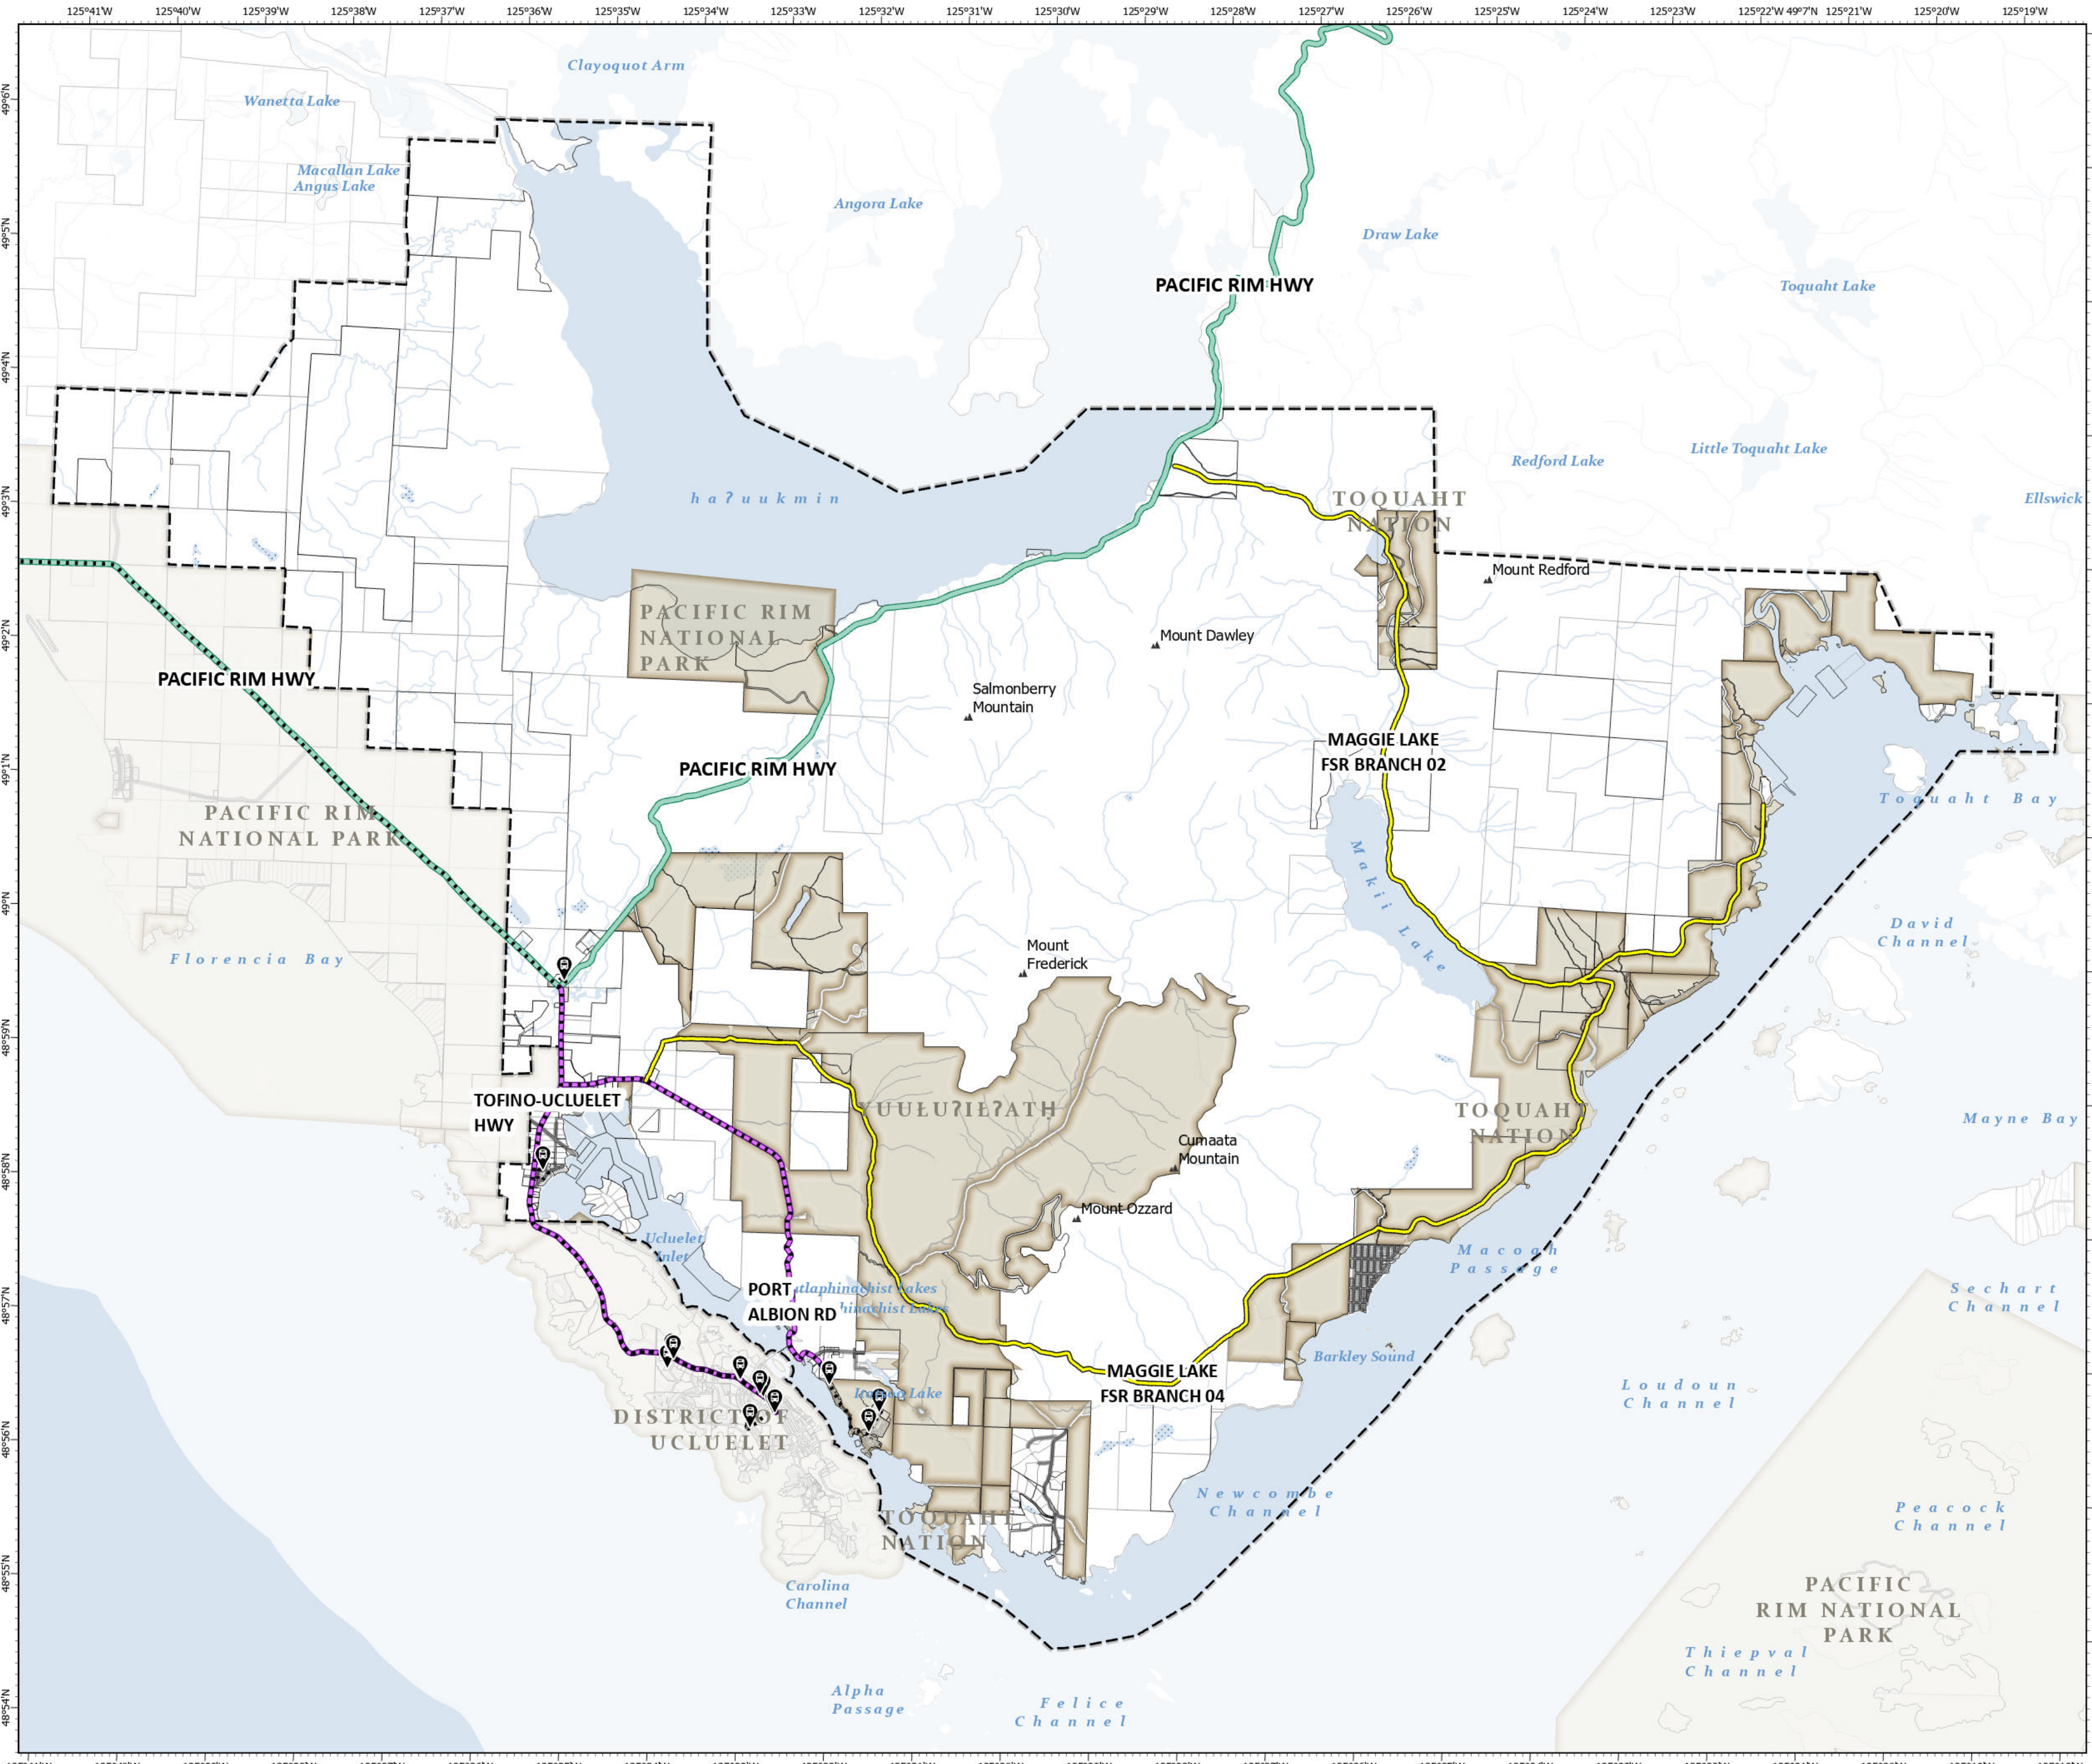

Map Notes

Highway: the Pacific Rim Highway (Hwy 4) provides primary vehicular access to the Area and serves as a major connection within the broader West Coast Region's transportation network; all numbered highways are owned and maintained by the Ministry of Transportation and Transit (MOTT).

Arterial Road: Port Albion Road and the Tofino-Ucluelet Highway are critical regional connections that serve higher vehicle volumes; both are owned and maintained by MOTT.

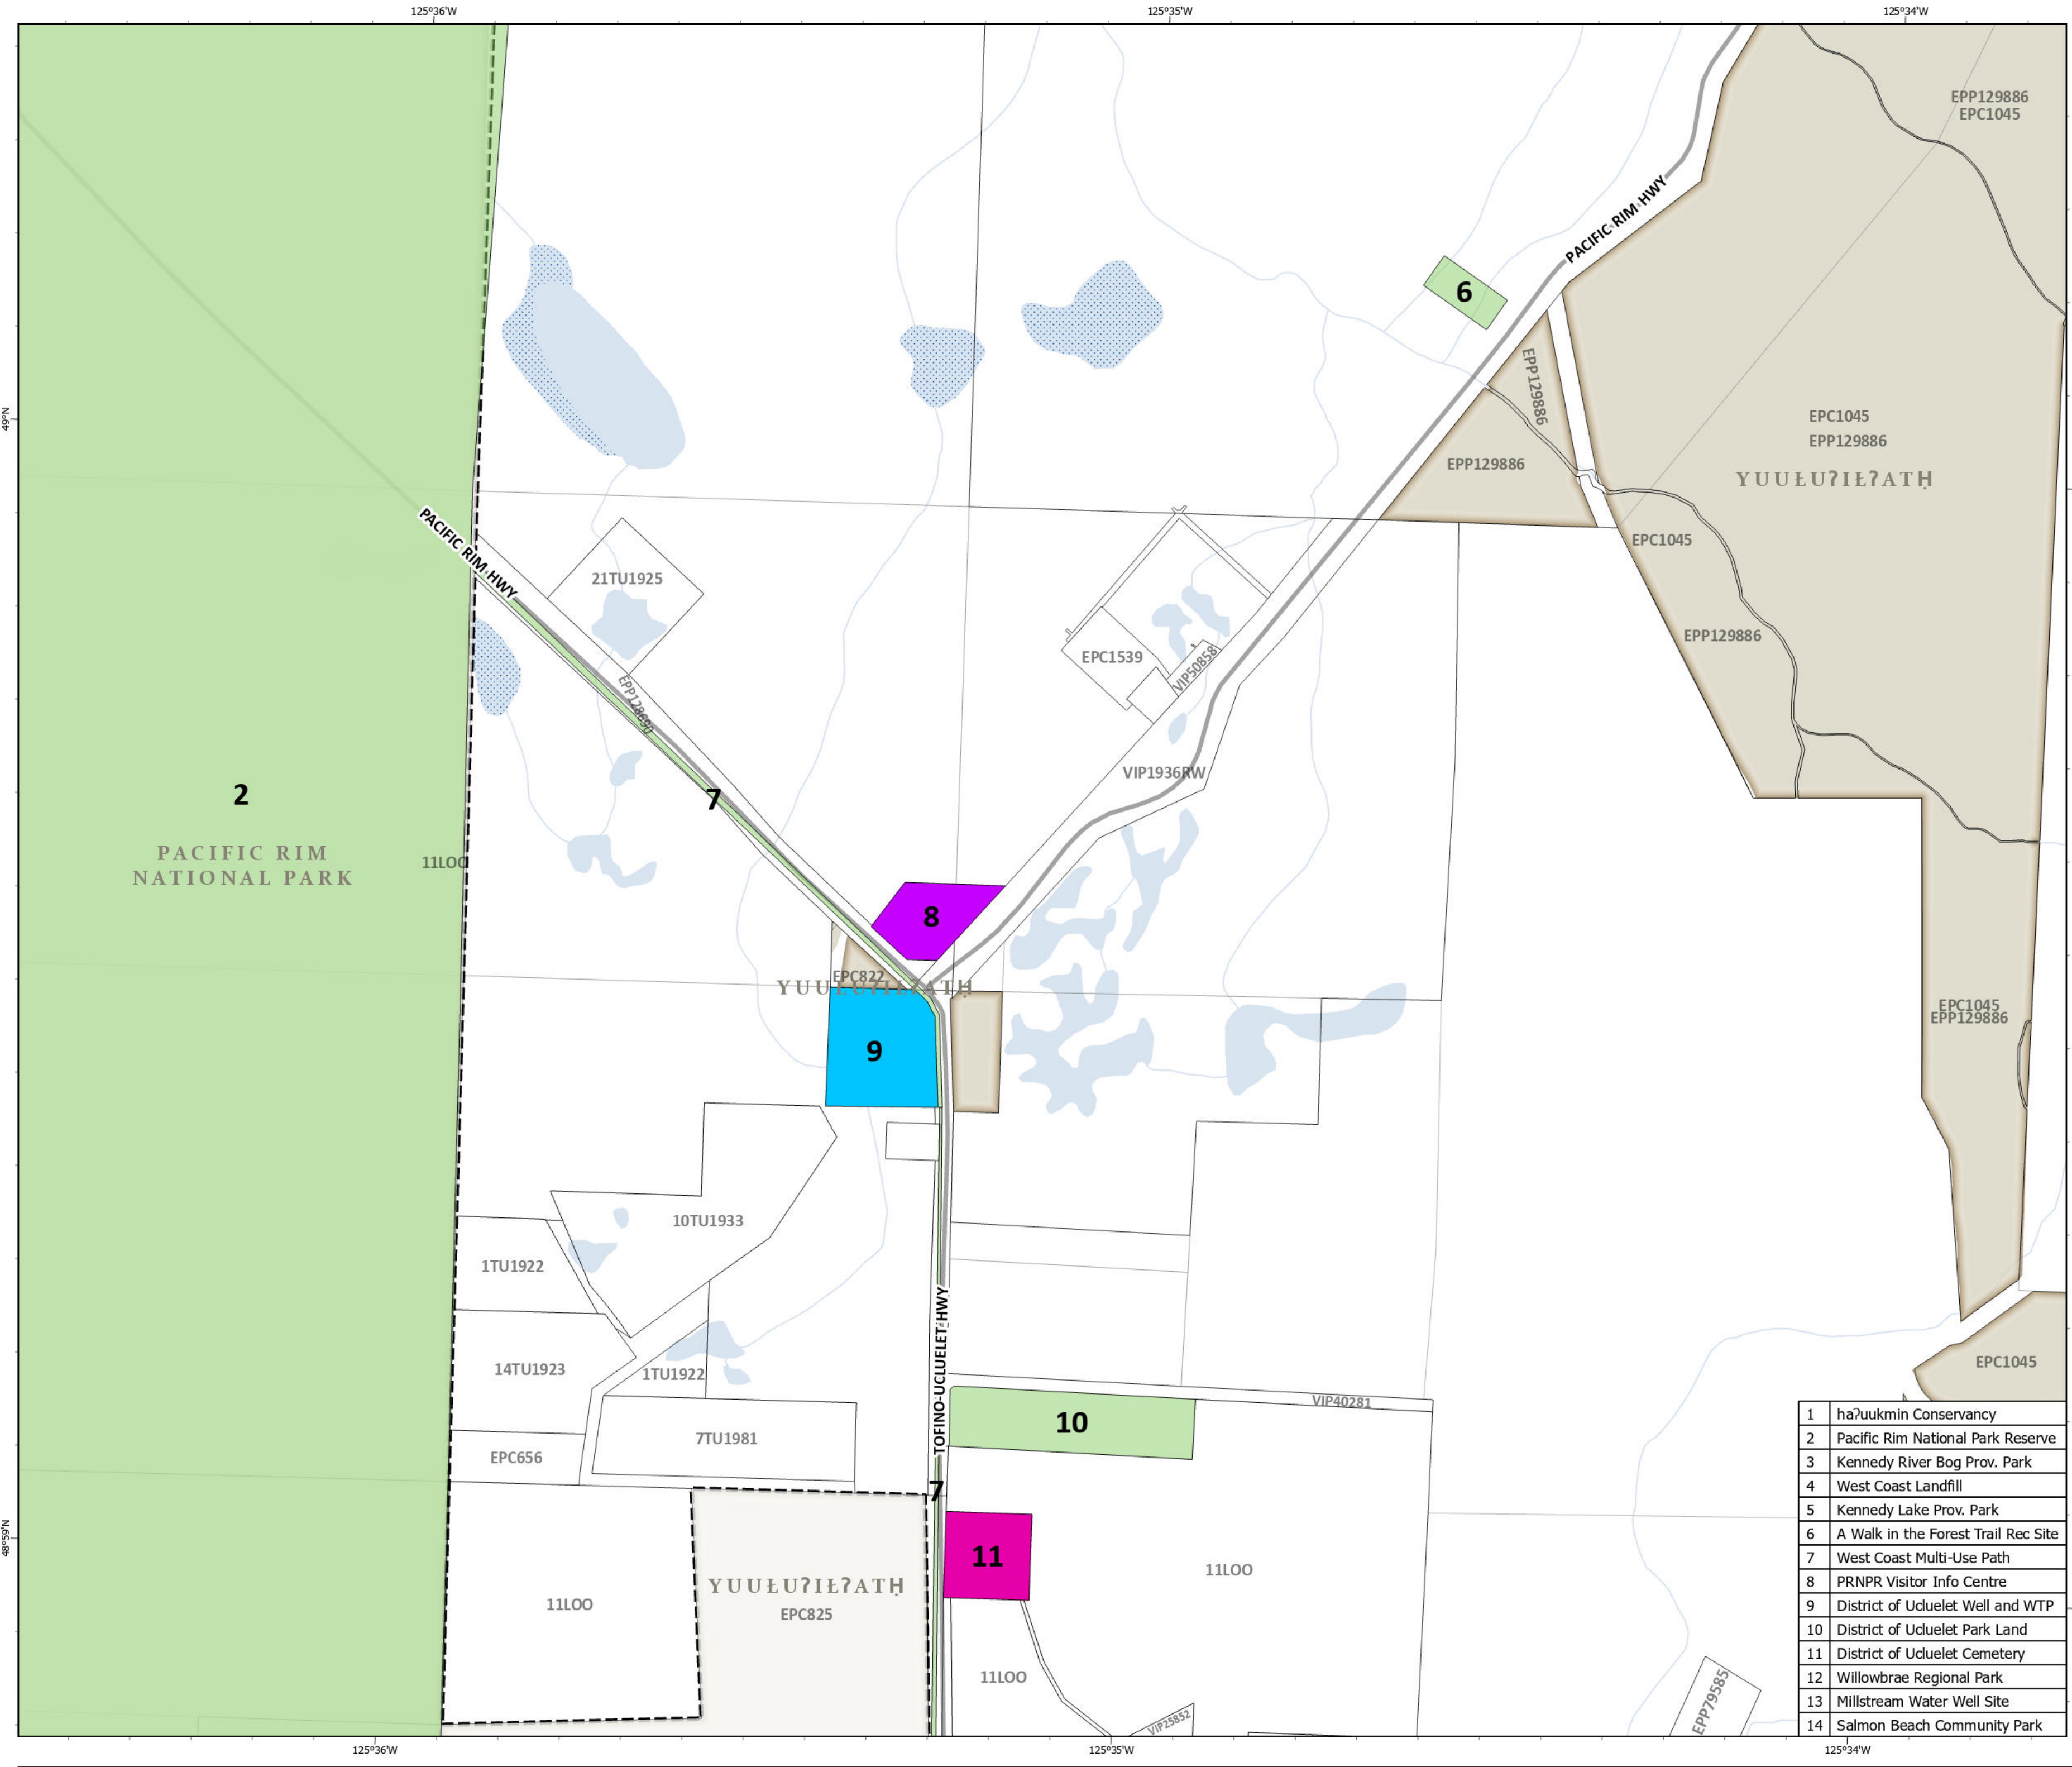

Unpaved Resource Road: Forest Service Roads (FSRs), Branch 2 and 4 (Maggie Lake FSRs) are maintained by the Ministry of Forests and connect to natural resources and to the communities of Ittatsuo Bay and Macoah. FSRs are roads located on Crown land that are not part of the provincial highway system and are not maintained by MOTT.

The road centerlines from the BC Digital Road Atlas were used to map each category.
