Attention ACRD,

I'm writing this letter to provide my experience with the petition I signed that was conducted by James and Joanne Hopkins at the end of January.

I was informed by them that the petition was to stop the impending removal of the bus stop on Lee street, Millstream. They told me the only two options was to remove the bus stop entirely or leave it where it is currently as there is zero option or possibility to relocate it. I didn't want the complete removal of the bus stop because I know residents in the area rely on it.

I was unaware at the time I signed their petition that MOTT had already been contacted and involved in coming up with solutions and a plan to relocate the bus stop to the hiway as a result of Brain and Jen Fitzgerald's petition which I also signed last year. I would have never signed James and Joanne's petition if I had known this.

I had initially signed the petition last year conducted by Jen and Brian for a change in location to the bus stop to be relocated from Lee street to the hiway or another option that wouldn't have the bus travelling through the entire Albion crescent for a multitude of reasons. I am in favour of relocating the bus stop to the hiway.

Thanks

Shawna Flynn

To the ACRD,

I'm writing this letter to withdraw my name from the petition I signed that was conducted by James Hopkins in January 2026. I was under the impression that the petition was to stop the impending removal of the bus stop on Lee street, Millstream. I was informed the only two options were to remove the bus stop entirely or leave it where it is currently as there is zero option or possibility to relocate it. I didn't want the removal of the bus stop because I know residents in the area rely on it as well as some tourists.

At the time I signed their petition, I was unaware that MOTT had already been contacted and involved in coming up with solutions and a plan to relocate the bus stop to the highway as a result of Brain and Jen Fitzgerald's petition which I also signed last year. I would have never signed James' petition if I had known this. I am in favour of relocating the bus stop to the highway. I would like to withdraw my endorsement of James' petition.

Sincerely,

Kerry Andeon
