**Subject:** Support for Application TUP26001

[CAUTION] This email originated from outside of the ACRD

Good afternoon,

I am writing today to support Star Hoerauf of MorningStar Woollen Farm and her application for a Temporary Use Permit (TUP26001) to allow six seasonal rustic glamping sites on her farm. I have had the privilege of learning from Star around the use of plants for dyeing fibre. I met Star last year when I became a member of the Alberni Valley Fibre Guild and am inspired by Star's knowledge and passion for regenerative agriculture and connecting people with all that this encompasses. I want to continue to grow my knowledge around what Star, through MorningStar Woollen, is offering and will plan to partake in her workshops on offer. I believe Star's plan is a solid one and will allow her to sustain this unique farm and all she has to offer, as an educator and as a passionate farmer.

My contact information is:

Colleen Clancy -
