

June 14, 2020

**Attention: Members of ACRD**

Attached is a petition to demand the ACRD move forward with the expansion of the transit system through the Tseshaht Reserve and Sproat Lake. There are a total of 66 signatures. Please keep in mind that due to Covid the signatures here represent a smaller portion of the public due to lack of access and social distancing.

I would also like to add for consideration that our local ATU (Amalgamated Transit Union), is currently lobbying the Federal Government to inject more funding into transit across Canada. If we are successful in this venture it may potentially help move costs of transit funding out of the pockets of tax payers.

I thank you for your consideration on this important and essential service for our community and look forward to this transit extension moving forward.

Sincerely

A handwritten signature in cursive script, appearing to read "Colette Harding".
