**Subject:** board meeting today

When the board is asked for decision to forward application to Alc could you ask for time for the public to have an opportunity for input. I would like to make a submission myself. As I was denied the opportunity to share my submissions as a committee member AAC (and as a result ,decision was made without my input) this would afford myself the time to prepare and submit to the board comments as a private citizen. Please note that at the AAC meeting there was discussion of the lack of time between the AAC meeting and the Board meeting. At this point ,it would seem this short delay would be in order to give the public time to weigh in on the matter and also eliminate the possible impression of pushing an agenda through. Thank you.

John Adams

.Appointed member ACRD AAC  
(chair) .Appointed member ACRD Beaufort APC
