TIPS TO  
**Bear in Mind**

## Store Garbage Securely!

- Lock public garbage bins and bear-bar with their carabiners in the upright position.
- Store attractants at home in a bear-resistant structure, bin or surrounded by electric fencing.
- Reduce the attractiveness of your garbage - store food scraps that smell in an indoor freezer until you are ready to take your garbage out.

### Common attractants to be secured:

- |                              |                               |
|------------------------------|-------------------------------|
| ✓ GARBAGE                    | ✓ COMPOST                     |
| ✓ FISHING & PRAWN BAIT       | ✓ CHICKENS                    |
| ✓ OUTDOOR FREEZERS & COOLERS | ✓ BONE MEAL & FISH FERTILIZER |

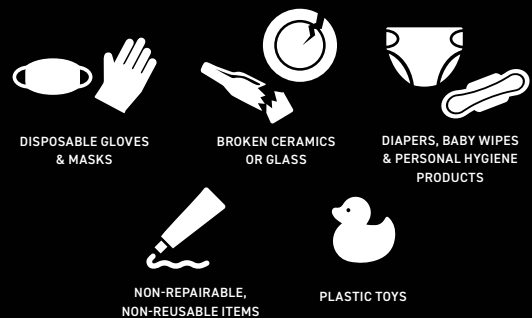

### Help make our town safe for people, pets and wildlife!

Learn more about how to properly secure attractants, contact Mandy, the Bamfield Bear Aware Coordinator, [bamfieldbearsmart@gmail.com](mailto:bamfieldbearsmart@gmail.com)

## Sort'nGo TRASH

### What Goes In

### What Stays Out

- ✗ STYROFOAM & PLASTIC BAGS & HAZARDOUS WASTE (RETURNABLE AT RECYCLE DEPOT)
- ✗ RECYCLABLES

 Before placing in the trash, consider the following: Can it go in the Recycling cart, be fixed or refurbished, donated or repurposed?
