

Addendum #1
RFT WCER01-22
West Coast Evacuation Route Plan
Alberni-Clayoquot Regional District

Please review the following information before submitting your response to WCER01-22.

1. In Schedule B: Scope of Work & Deliverables it indicates that the budget must include travel expenses and Section 8 describes the requirement to perform a physical site visit to each community. Can the project authority confirm the project partners referred to within Schedule B are:
 - Bamfield & Long Beach Electoral Areas
 - Huu-ay-aht First Nation
 - Toquaht Nation
 - Uchucklesaht Tribe
 - Yuułuʔiłʔatḥ
 - a. **Yes, These are correct**
2. Can the project authority define which community locations require physical site visits? For example some of the project partner First Nations are publicly described as having more than one village, as well as a government building in a neighbouring city or community.
 - a. **Bamfield, Long Beach Electoral Areas, Anacla (Huu-ay-aht), Macoah (Toquaht), Ehthlateese (Uchucklesaht), Hitacu (Yuułuʔiłʔatḥ).**
3. Pertaining to travel expenses, does the project authority assume an ACRD representative will accompany the project team to site visits at remote locations? If so, will the project authority or project partner coordinate marine transportation to the community with marine access?
 - a. **ACRD will not necessarily attend all partner meetings, however it is anticipated that some partner meetings may be coordinated with Electoral Area meetings. It is up to the consultant to arrange for marine transportation to Ehthlateese; however, ACRD and partner will support consultant in finding suitable marine transportation. All other communities can be accessed by road.**
