

Our Vision: Excellent health and care for everyone,
everywhere, every time.

MEMORANDUM

DATE: June 23, 2021

TO: Residents of Bamfield

FROM: Island Health

RE: Last Chance! Bamfield COVID-19 Vaccine Clinics June 23-24

Reminder to the community of Bamfield: Island Health's COVID-19 vaccine clinic is in your community this week at the Bamfield Health Centre.

This is your last chance to get your shot in your home community. This clinic is for people age 12 (or turning 12 this calendar year) and up needing a first dose, and for anyone ready for your second dose (if you received a first dose more than 4 weeks ago).

While we encourage everyone to book an appointment to guarantee you can get in, **we are also accepting walk-ins** to ensure the clinic is as accessible as possible. Please note walk-ins may be limited due to limited supply, so appointments are recommended.

To book a last minute appointment, call 1-833-838-2323 and let the agent know you want to book into the Whole Community Clinic at the Bamfield Health Centre.

The clinics will take place Wednesday, June 23 and Thursday, June 24 from 9:00 a.m. to 5:00 p.m. (closed for lunch between 12-1 p.m.).

If you have any questions, please contact Kristen Gregson, Area Director, Central Island Immunization Clinics, at Kristen.Gregson@viha.ca or 250-217-5939.
