Meeting Summary

We will be providing updates on recent changes at the Alberni Valley Landfill including expanded recycling services, bylaw changes and our new Mobile App and website for recycling and collection info. We will be giving an update on the organics diversion program with phased implementation timeline and potential impacts on the commercial sector.

We will also be presenting draft designs for reconfiguring the Alberni Valley Landfill to better manage increased traffic, additional recycling, and organics transfer. We will be asking for commercial hauler feedback on these items and other solid waste/recycling items.

This meeting is open to your staff who have input on challenges and potential solutions for solid waste in the Alberni Valley. Supervisors, drivers and dispatch who work with customers will find this meeting valuable.

See you there.

Jenny Brunn,

Interim Manager of Community Services
