

IMPORTANT NOTICE - Temporary water shortage and **Boil Water Advisory**
issued for WEST BAMFIELD

Please reduce your water use immediately and boil all drinking water.
Water should be subject to a rolling boil for at least 3 minutes prior to cooling and consumption.

This boil water advisory is effective immediately on September 24th, 2020 until further notice.

As a result of a water main break serving West Bamfield there is limited water available in West Bamfield. Because of the potential for backflow and contamination of the water system, the water that is available currently may not be safe for human consumption.

The repair work is underway and we hope to have regular water volumes restored by the end of the day. The boil water advisory is expected to remain in effect for 7-10 days and until further notice. This restriction and advisory do not apply to East Bamfield. An update on the situation will be provided later this afternoon.

Please spread the word to your neighbours in west Bamfield.
