

Beaufort Official Community Plan

Beaufort Advisory Planning Commission

February 19, 2026
Session 1: Building the Framework

Introductions

What is an Official Community Plan (OCP)?

- Road map that outlines the vision, objectives and policies for the future and change of a community.
- Tells a story of where the community is now and sets out a 20 year plan for where the community would like to be in the future.

An OCP helps determine where people will live, work, and play, and how they move around.

It shapes how the community looks and feels, and influences day-to-day experiences and quality of life.
