

Regional District of Alberni-Clayoquot

Please find attached letters of opposition for a possible development on Dundalk Ave. N.
Cherry Creek, Port Alberni.

This 20+ ha parcel is on Dundalk Avenue North, off the Old Nanaimo Highway.

PID 005 853 397

Code AR 20050000

DL 135 Alberni District

We are opposing the removal of agricultural land from the ALR and the development into
residential parcels.

Thank you.

Re: Agricultural Land Reserve parcel on Dundalk Avenue North, Port Alberni

This is a letter regarding the land located on the east side of Dundalk Avenue North, Port Alberni.

We understand that the new owner, Darren Deluca (land may be listed under a numbered company) is intending to apply to have the land removed from the ALR and subdivide into as many parcels as possible for real estate development.

We are opposing this development as we believe that Agricultural Land Reserve land should remain ALR land.

In many areas of our Province, ALR land has been removed for housing, golf courses etc., which we believe is very detrimental to the environment and the many animals that benefit from the natural habitat. Far too many areas have been altered and as such we already see many more deer, bears, cougars, and predator birds within the City and the Regional District areas due to the changed landscapes.

In addition, this area of land is within the Cherry Creek Waterworks District, and the water lines that would supply this potential development are on the far outskirts of the waterworks district. We are the last to receive water and are affected when there are broken water mains. It's unclear to us as to whether this small and older water system is able to support a large development of 20 plus homes.

Please consider the Dundalk Avenue North and Old Nanaimo Highway residents' opposition if an application is received to have this land removed from the Agricultural Land Reserve.

Thank you for your consideration.

Sincerely,

Re: Agricultural Land Reserve parcel on Dundalk Avenue North, Port Alberni

This is a letter regarding the land located on the east side of Dundalk Avenue North, Port Alberni.

We understand that the new owner, Darren Deluca (land may be listed under a numbered company) is intending to apply to have the land removed from the ALR and subdivide into as many parcels as possible for real estate development.

We are opposing this development as we believe that Agricultural Land Reserve land should remain ALR land.

In many areas of our Province, ALR land has been removed for housing, golf courses etc., which we believe is very detrimental to the environment and the many animals that benefit from the natural habitat. Far too many areas have been altered and as such we already see many more deer, bears, cougars, and predator birds within the City and the Regional District areas due to the changed landscapes.

In addition, this area of land is within the Cherry Creek Waterworks District, and the water lines that would supply this potential development are on the far outskirts of the waterworks district. We are the last to receive water and are affected when there are broken water mains. It's unclear to us as to whether this small and older water system is able to support a large development of 20 plus homes.

Please consider the Dundalk Avenue North and Old Nanaimo Highway residents' opposition if an application is received to have this land removed from the Agricultural Land Reserve.

Thank you for your consideration.

Sincerely,

We are opposing this development as we believe that Agricultural Land Reserve land should remain ALR land.

In many areas of our Province, ALR land has been removed for housing, golf courses etc., which we believe is very detrimental to the environment and the many animals that benefit from the natural habitat. Far too many areas have been altered and as such we already see many more deer, bears, cougars, and predator birds within the City and the Regional District areas due to the changed landscapes.

In addition, this area of land is within the Cherry Creek Waterworks District, and the water lines that would supply this potential development are on the far outskirts of the waterworks district. We are the last to receive water and are affected when there are broken water mains. It's unclear to us as to whether this small and older water system is able to support a large development of 20 plus homes.

Please consider the Dundalk Avenue North and Old Nanaimo Highway residents' opposition if an application is received to have this land removed from the Agricultural Land Reserve.

Thank you for your consideration.

Sincerely,

Re: Agricultural Land Reserve parcel on Dundalk Avenue North, Port Alberni

This is a letter regarding the land located on the east side of Dundalk Avenue North, Port Alberni.

We understand that the new owner, Darren Deluca (land may be listed under a numbered company) is intending to apply to have the land removed from the ALR and subdivide into as many parcels as possible for real estate development.

We are opposing this development as we believe that Agricultural Land Reserve land should remain ALR land.

Far too many areas have been altered and as such we already see many more deer, bears, cougars, and predator birds within the City and the Regional District areas due to the changed landscapes.

In addition, this area of land is within the Cherry Creek Waterworks District, and the water lines that would supply this potential development are on the far outskirts of the waterworks district. We are the last to receive water and are affected when there are broken water mains. It's unclear to us as to whether this small and older water system is able to support a large development of 20 plus homes.

Please consider the Dundalk Avenue North and Old Nanaimo Highway residents' opposition if an application is received to have this land removed from the Agricultural Land Reserve.

Thank you for your consideration.

Sincerely,

Re: Agricultural Land Reserve parcel on Dundalk Avenue North, Port Alberni

This is a letter regarding the land located on the east side of Dundalk Avenue North, Port Alberni.

We understand that the new owner, Darren Deluca (land may be listed under a numbered company) is intending to apply to have the land removed from the ALR and subdivide into as many parcels as possible for real estate development.

We are opposing this development as we believe that Agricultural Land Reserve land should remain ALR land.

In many areas of our Province, ALR land has been removed for housing, golf courses etc., which we believe is very detrimental to the environment and the many animals that benefit from the natural habitat. Far too many areas have been altered and as such we already see many more deer, bears, cougars, and predator birds within the City and the Regional District areas due to the changed landscapes.

In addition, this area of land is within the Cherry Creek Waterworks District, and the water lines that would supply this potential development are on the far outskirts of the waterworks district. We are the last to receive water and are affected when there are broken water mains. It's unclear to us as to whether this small and older water system is able to support a large development of 20 plus homes.
