**Drinking Water:**

Multiple dwellings on a lot serviced by a single water source will need to meet the requirements of the Drinking Water Protection Act and Regulation. Under the Drinking Water Protection Act and Regulation, any construction, installation, alteration, or extension of (a) a water supply system, or (b) works, facilities, or equipment that are intended to be a water supply system or part of a water supply system, must be issued a construction permit from our Public Health Engineer. It is recommended that the applicant contact Island Health to discuss requirements related to Drinking Water.
